ISO 9001:2015 for Small Businesses Ray Tricker, 2016-10-04. Small businesses face many challenges today, including the increasing demand by larger companies for ISO 9001 compliance, a challenging task for any organization and in particular for a small business without quality assurance experts on its payroll. Ray Tricker has already guided hundreds of businesses through to ISO accreditation, and this sixth edition of his life-saving ISO guide provides all you need to meet the new 2015 standards. ISO 9001:2015 for Small Businesses helps you understand what the new standard is all about and how to achieve compliance in a cost-effective way. Covering all the major changes to the standards, this book provides direct, accessible, and straightforward guidance. This edition includes down-to-earth explanations to help you determine what you need to enable you to work in compliance with and/or achieve certification to ISO 9001:2015, a contextual explanation of ISO 9001 within the structure of the ISO 9000 family of standards, a detailed description of the structure of ISO 9001:2015 and its compliance with Annex SL, coverage of the new requirements for Risk Management and Risk Analysis, a guide to the costs involved in implementing ISO 9001:2015, and advice on how to control costs. An example of a complete generic Quality Management System consisting of a Quality Manual plus a whole host of Quality Processes, Quality Procedures, and Work Instructions, and access to a free software copy of these generic QMS files to give you a starting point from which to develop your own documentation. This book is also supported with a complete bibliography containing abbreviations and acronyms, as well as a glossary of terms. This comprehensive text will provide you and your small business with a complete guide on your way to ISO compliance.

Development of MS ISO/IEC 17025 Quality System (general Requirements for the Competence of Testing and Calibration Laboratories) for FKM Laboratory. Hon Chung Lew, 2009. This report describes about the development of MS ISO IEC 17025:2005 quality manual and system procedure for FKM laboratory, University Malaysia Pahang UMP. This report consists of five chapters which are Introduction, Literature Review, Methodology, Results, and Conclusion. The objectives of this project are to study and identify the clauses of MS ISO IEC 17025:2005 and develop the quality manual and system procedure according to the standard requirement for FKM laboratory. Studying and understanding the clauses is important before developing the quality manual and system procedure. This standard is divided into two main requirements which are management requirement and technical requirement. The management requirement of this standard is similar with the requirement of ISO 9001. The requirement of ISO 9001 was being studied. A workshop of MS ISO IEC 17025:2005 was being attended to understand more clearly on the clauses and some important information to develop the quality manual and system procedure. After that, one of the accredited MS ISO IEC 17025 laboratories has been chosen to visit. It was also to understand more deeply in developing the quality manual and system procedure and ensure that the quality manual and system procedure is developing in the right path. The quality manual is developing as the policy and objective of the laboratory. The system procedure will be developed as a procedure to achieve the objective of the quality manual. The forms are being created as

an evidence to support the requirements of the standard The quality manual had been developed from clause 4 9 to clause 4 15 which is clauses of management requirement of the standard The system procedure also had been developed for each of the clauses except the clause 4 10 improvement This clause not required any system procedure because this clause had related with the entire clause to ensure that the quality management system is continual improve Some of the form had been created such as Non Conforming Investigation Form Corrective and Preventive Action Form The schedule for the internal audit and management review had been developed The audit checklist had been created for the auditor use during the audit process All the documents will be proposed to FKM laboratory for the accreditation of MS ISO IEC 17025 2005 In conclusion the objective of the project had been achieved where the entire related document had been developed
