Taking on General Motors Eric Mann, 1987 *General Motors World*, 1930 **General Motors Corporation v Department of Treasury, 466 Mich 231 (2002)**, 2002 116984 Emich Motors Corporation V. General Motors Corporation, 1949 **McAuley v. General Motors Corporation, 457 MICH 513 (1998)**, 1998 106915 Sixty to Zero Alex Taylor, 2010 An award winning journalist's insights into the auto industry the decline of once great companies and the failures of management The collapse of General Motors captured headlines in early 2009 but as Alex Taylor III writes in this in depth dissection of the automaker's undoing GM's was a meltdown forty years in the making Drawing on more than thirty years of experience and insight as an automotive industry reporter as well as personal relationships with many of the leading players Taylor reveals the many missteps of GM and its competitors a refusal to follow market cues and consumer trends a lack of follow through on major initiatives and a history of hesitance inaction and failure to learn from mistakes In the process he provides lasting lessons for every executive who confronts the challenges of a changing marketplace and global competition Yet Taylor resists condemning GM's leadership from the privileged view of hindsight Instead his account enables the reader to see GM's decline through the eyes of an insider with the understanding that corporate decision making at a company as large as General Motors isn't as simple as it may seem Taylor's book serves as a marvelous case study of one of the United States premier companies of which every American quite literally now holds a share **American Wheels, Chinese Roads** Michael J. Dunne, 2011-07-20 How could one company General Motors meet disaster on one continent and achieve explosive growth on another at the very same time While General Motors was hurtling towards bankruptcy in 2009 GM's subsidiary in China was setting new sales and profit records This book reveals how extraordinary people remarkable decisions and surprising breaks made triumph in China possible for General Motors It also shows just how vulnerable that winning track record remains No small part of GM's success in China springs from its management of shifting business and political relationships In China the government makes the rules for and competes in the auto industry GM's business partner the City of Shanghai is both an ally and a competitor How does such an unnatural relationship work on a day to day basis Where will it go on the future General Motors also engages in constant battles with other global and Chinese car makers for the hearts of demanding Chinese consumers Dunne gives us rare glimpses into the mindsets and behavior of this new moneyed set the world's newest class of wealthy consumers China is already the number one car market in the world During the next ten years China will export millions of cars and trucks globally including to the United States **American Wheels Chinese Roads** presents readers with fascinating illustrations of what to expect when Chinese cars companies and business people arrive on our shores **Annual Report** General Motors Corporation, 1929 *Moody's Manual of Railroads and Corporation Securities*, 1922 Rude Awakening Maryann Keller, 1989 GM was forced to re-examine its management philosophy realize its limitations and grapple with an everchanging global marketplace to insure its survival in the 90s
