Kumar,Ashwani Kumar**

Sustainable Living Trends America 19 893 Sustainable Living Trends For:

Global Energy Market Trends Anco S. Blazev,2021-01-07 As discussed in this text countries with excess energy resources export these to countries that need them This is an important function of the global energy markets where energy sources products and services are traded among countries and companies While this is the primary activity in energy markets it is only part of the entire global energy market scheme The goal of this text is to analyze all sides of the energy markets in their physical technological economic political regulatory environmental financial and legal aspects

Animal-Derived Foods in Our Diets: Nutrition, Health and Social Implications Jeff Wood,Ian Givens ,Carlotta Giromini,2026-01-30 Animal derived foods ADFs including milk and dairy products meat and meat products fish eggs and insects contribute vital nutrients to the diets of people around the world and low intakes have been linked to conditions such as stunted growth poor bone development and anaemia Important nutrients include protein calcium iodine iron B vitamins and bioactive peptides On the other hand consumption of some ADFs has also been linked with increasing risks of cardiovascular disease type 2 diabetes and various cancers with saturated fat and haem iron being implicated Reasons for higher consumption of ADFs include increasing levels of disposable income especially in developing countries Declining consumption has been explained by changing consumer attitudes to ADFs which is becoming more common in developed countries especially in young people For the continuing success of the industries involved in the production of ADFs and the health of the population it is vital that the nutritional and health implications of both increasing and declining levels of consumption are understood More evidence is needed on the health risks associated with the different types of ADF and the nutrients they provide The reasons for declining levels of consumption in some young people are not understood Concerns over the welfare of animals in some production systems and the high environmental cost of animal production are mentioned but is there more to it than this Data are needed to balance the perceived high welfare and environmental costs against the nutritional and health risks from nutrient deficiencies This Research Topic will provide new insights into the consumption nutritional benefits and consumer attitudes towards ADFs Themes for research papers reviews mini reviews and commentaries could include Saturated fats and disease risk Benefits of fermented foods Health aspects of milk proteins Environmental and welfare aspects of animal production in relation to nutritional and health benefits Bioactive compounds in foods and human health Consumer attitudes to ADFs and plant based diets Links between egg consumption and health n 3 fatty acids and CVD risk Ingredients of animal diets to improve nutritional value Changing fatty acid composition by feeding strategies Health aspects of ADFs vegetarian and vegan diets Processed vs fresh foods effects on nutrition and health Nutritional aspects of fish consumption Iron bioavailability in meat and other foods Enhancing mineral and vitamin contents of foods *Climate Change and Plant Abiotic Stress Tolerance* Narendra Tuteja,Sarvajeet S. Gill,2013-10-30 In this ready reference a global team of experts comprehensively cover molecular and cell biology based approaches to the impact of

increasing global temperatures on crop productivity The work is divided into four parts Following an introduction to the general challenges for agriculture around the globe due to climate change part two discusses how the resulting increase of abiotic stress factors can be dealt with The third part then outlines the different strategies and approaches to address the challenge of climate change and the whole is rounded off by a number of specific examples of improvements to crop productivity With its forward looking focus on solutions this book is an indispensable help for the agro industry policy makers and academia

Performance Characterization of Lubricants Abhishek Kumar, Avinash Kumar, Ashwani

Kumar, 2024-11-14 The text discusses the fundamentals of lubrication science and technology linking the science concepts to engineering practices It further explores the performance characterization of lubrication systems by utilizing sophisticated experiments and tests and motivates the readers to develop their conclusions and reach solutions based on modern tools and techniques This book Presents the principles of surface and lubricant chemistry and its implementation to devise engineering solutions for various application based systems Discusses viscosity index improvers tribology of green lubricants and biolubricants from non edible oils Highlights 2D nanomaterials lubricants biogreases hydrogel and lubricants for extreme temperature and pressure conditions Explains lubrication for electrical biomedical automobile marine turbine and aerospace applications Covers design considerations formulations and compositions of lubricants for high temperature applications in diverse areas Explores the simulation computational and empirical models to characterize quantify and mitigate the adverse effects of friction It is primarily written for senior undergraduate and graduate students and academic researchers in the fields of mechanical engineering production engineering industrial engineering aerospace engineering and manufacturing engineering

Sampling and Monitoring for the Mine Life Cycle McLemore, Virginia T., Smith, Kathleen S., Russell,

Carol C., 2014-05-28 Sampling and Monitoring for the Mine Life Cycle provides an overview of sampling for environmental purposes and monitoring of environmentally relevant variables at mining sites It focuses on environmental sampling and monitoring of surface water and also considers groundwater process water streams rock soil and other media including air and biological organisms The handbook includes an appendix of technical summaries written by subject matter experts that describe field measurements collection methods and analytical techniques and procedures relevant to environmental sampling and monitoring The sixth of a series of handbooks on technologies for management of metal mine and metallurgical process drainage this handbook supplements and enhances current literature and provides an awareness of the critical components and complexities involved in environmental sampling and monitoring at the mine site It differs from most information sources by providing an approach to address all types of mining influenced water and other sampling media throughout the mine life cycle Sampling and Monitoring for the Mine Life Cycle is organized into a main text and six appendices that are an integral part of the handbook Sidebars and illustrations are included to provide additional detail about important concepts to present examples and brief case studies and to suggest resources for further information
