Proceedings of the International Conference on Strategic and Global Studies (ICSGS 2024) Ibrahim Kholilul Rohman, Wu Zhaoyang, Mohammad Izdiyan Muttaqin, Ismail Suardi Wekke, Irene Sondang Fitritinia, 2025-01-31 This is an open access book The pandemic turned to endemic has pushed many countries in the world to digitalize almost all sectors in order to accelerate the development Every crisis moments create momentum of opportunity to revive and reawaken the hidden potencies of nations Instead of given thought about the digital culture the social changes rapidly occurred The discourses of digital security cyber threats monetization crypto currency big data internet of things IoT artificial intelligence AI and social media had taken us concern about future generations The very existence of AI application distorts the academic world too where the difference of human and bot could hardly determine Chat GPT also opened academic eyes where the human analytics skill would perish against the advancement of technology that could provide more precise answers despite lack of wisdom Alipay has turned MSMEs to wider market and reach even small villagers to allow opportunity reach them Gojek eases the burden of stagnancy in making affordable and comfortable public transportation where at the same time reduce the traffic frequency Would everyone be fitted with the recent situation or still some country left behind Whereas for some parts of the world the very basic needs like electricity elementary education clean water healthy food and secure shelter are still luxurious and hard to access for certain part of the world The gap disparity remains and recent world order is not everyone's favor or answer for all problems Meanwhile the attack of HAMAS to the Israeli shocked the world when the Operation Aqsa Flood launched in 7th of October 2023 days gone by the casualties mounted and the psychology of Palestinian disturbed to the extent incurable Worse things worst Iran retaliates Israel after the attack to its consulate in Syria The international society and global politics failed to show solidarity amidst the humanitarian catastrophe in Palestine where

Western alliance continuously rejected the cease fire in the UNGA The US as the global power failed to show its quality as the world leader which prove the political constellation moved to the multipolarity The injustice still persists and the voice to transform world order in UN resonates The consequence lies on the transformation of global security where each nations pursue its own weaponization to ensure its national survival and well being in the face of uncertainty and unpredictable threats The opportunity arises in the sector of global halal industry The player is not only Muslim countries but non Muslim countries are taking part The industry expanded from food to banking and financial system as well as tourism and fashion Countless exhibition in regards with halal industry appeared and triggered more expansion in market as the global expense in halal industry significantly increased This conference will become the melting pot of brilliant idea and push forward the solution to the global problem by making strategic decision into useful resource for all to solve the matters Navigating the Technological Tide: The Evolution and Challenges of Business Model Innovation Bahaaeddin Alareeni,Allam

Hamdan,2024-07-31 In an era defined by technological breakthroughs such as AI blockchain and IoT this book offers a fresh and practical approach to Business Model Innovation BMI It delves into how technological advancements drive new business models and enhance operational efficiency providing actionable insights and real world examples for business leaders strategists operations managers entrepreneurs and students in business and technology disciplines Encouraging diverse research methods including theoretical empirical and multimethod studies it welcomes manuscripts with clear managerial or policy implications Aimed at students scholars researchers professionals executives government agencies and policymakers this book equips readers with tools to succeed in today s dynamic business environment and supports multidisciplinary research to advance innovation management practices Halal SuperHighway Marco Tieman,2011-11-17 Technical Report

from the year 2011 in the subject Business economics Supply Production Logistics course Halal supply chain management language English abstract The purpose of the Halal SuperHighway design is to provide a blueprint for the command control of global Halal supply chains The Halal SuperHighway is the result of a 5 year research program conducted under the Halal Research Centre of LBB International in Malaysia In this research report the supply chain strategy supply chain network structure supply chain business processes and supply chain control are defined The Halal SuperHighway can be an important instrument in the authentication of Halal in a supply chain providing market access and a cost advantage for the Halal industry **Malaysia, International Trade and Industry Report** ,2009 *Proceedings* ,2009 *Third Industrial Master Plan, 2006-2020* Malaysia,Malaysia.
