

Work Attitude Values Enhancement : Your Personal Principles

Some companies conduct work attitude values enhancement programs for their employees. As a newbie seeking [career success](#), you can use these values as your own personal work attitude values enhancement principles.

These are my work attitudes when I do my job - [Pride, Passion and Belief](#). A few years back, I spoke about this [general work attitude](#) with some of my new staff and it was well received. In fact, it worked well as some of them internalized these attitudes and I could see it in their productivity. I didn't think I needed to share my 'personal' work attitude values enhancement principles with my staff then.

As years past and new people joined the company, the words pride, passion and belief became more watered down. Somehow, while they still used it as a  guiding principle the value of it was lost. And I felt compelled to tell the other half of my 'personal' work attitude values enhancement story.

I say 'personal' work attitude values enhancement principles for a reason. These principles were some of those that I felt worked well for me. And I did a little scribble on them a long time ago.

Pride, passion and belief are important as elements within my personal work attitude values enhancement principles.

However, there is another side to these:

1. Skills

[Skills and knowledge](#) are important to complement pride when doing your work as a newbie seeking career success. You can have a lot of pride and take personal responsibility for your work. But if you lacked the skills and knowledge to do your work well, it will not be productive. You will still not be able to achieve the desired results.

Be aware of the skills and knowledge your work requires. Sharpen those skills. If you need to learn new ones, make plans to acquire them. You should discuss them with your immediate supervisor. Skills and knowledge must be the backbone of your pride at work in order for you to [achieve the success](#) you seek.

2. Direction

The second personal work attitude values enhancement principle you should learn is that [passion](#) must be led by direction.

You cannot have burning passion for your work but lack the direction your passion can be guided towards. Passion is what will pull you through the toughest times at work. It gives you the energy to burn the midnight oil. It pushes you to do that little extra.
