Two and Twenty Sachin Khajuria,2022-06-14 The first true insider s account of private equity revealing what it takes to thrive among the world s hungriest dealmakers Brilliant eloquently takes readers inside the heroic world of private equity an essential read Forbes ONE OF THE BEST BOOKS OF THE YEAR Next Big Idea Club Private equity was once an investment niche Today the wealth controlled by its leading firms surpasses the GDP of some nations Private equity has overtaken investment banking and well known names like Goldman Sachs and Morgan Stanley as the premier destination for ambitious financial talent as well as the investment dollars of some of the world s largest pension funds sovereign wealth funds and endowments At the industry s pinnacle are the firms partners happy to earn two and twenty that is a flat yearly fee of 2 percent of a fund s capital on top of 20 percent of the investment spoils Private equity has succeeded in near stealth until now In *Two and Twenty* Sachin Khajuria a former partner at Apollo gives readers an unprecedented view inside this opaque global economic engine which plays a vital role underpinning our retirement systems From illuminating the rituals of firms all powerful investment committees to exploring key precepts think like a principal not an advisor Khajuria brings the traits culture and temperament of the industry s leading practitioners to life through a series of vivid and

unvarnished deal sketches Two and Twenty is an unflinching examination of the mindset that drives the world's most aggressive financial animals to consistently deliver market beating returns

Private Equity 4.0 Benoît Leleux, Hans van Swaay, Esmeralda Megally, 2015-01-20 Private equity is more economically significant than ever as institutions hunt for high returns in a risky world Private Equity 4.0 examines the role workings and contribution of this important industry in a straightforward yet revealing manner Dr Josh Lerner Jacob H Schiff Professor of Investment Banking Chair Entrepreneurial Management Unit Harvard Business School A multi perspective look at private equity's inner workings Private Equity 4.0 provides an insider perspective on the private equity industry and analyzes the fundamental evolution of the private equity asset class over the past 30 years from alternative to mainstream The book provides insightful interviews of key industry figures and case studies of some of the success stories in the industry It also answers key questions related to strategy fund manager selection incentive mechanisms performance comparison red flags in prospectuses and more Private Equity 4.0 offers guidance for the many stakeholders that could benefit from a more complete understanding of this special area of finance Understand the industry's dominant business models Discover how value is created and performance measured Perform a deep dive into the ecosystem of professionals that make the industry hum including the different incentive systems that support the industry's players Elaborate a clear set of guidelines to invest in the industry and deliver better performance Written by a team of authors that combine academic and industry expertise to produce a well rounded perspective this book details the inner workings of private equity and gives readers the background they need to feel confident about committing to this asset class Coverage includes a historical perspective on the business models of the three major waves of private equity leading to today's 4.0 model a detailed analysis of the industry today as well as reflections on the future of private equity and prospective futures It also provides readers with the analytical and financial tools to analyze a fund's performance with clear explanations of the mechanisms organizations and individuals that make the system work The authors demystify private equity by providing a balanced but critical review of its contributions and shortcomings and moving beyond the simplistic journalistic descriptions Its ecosystem is complex and not recognizing that complexity leads to inappropriate judgments Because of its assumed opacity and some historical deviant and generally transient practices it has often been accused of evil intents making it an ideal scapegoat in times of economic crisis prodding leading politicians and regulators to intervene and demand changes in practices Unfortunately such actors were often responding to public calls for action rather than a thorough understanding of the factors at play in this complex interdependent system doing often more harm than good in the process and depriving economies of one of their most dynamic and creative forces Self regulation has clearly shown its limits but righteous political interventions even more so Private equity investment can be a valuable addition to many portfolios but investors need a clear understanding of the forces at work before committing to this asset class With detailed explanations and expert insights Private Equity 4.0 is a comprehensive guide to the industry ways and means that

enables the reader to capture its richness and sustainability The Economist, 1984 *Private Equity* Harold Bierman, Jr., 2011-09-07 Praise for Private Equity Harold Bierman has blended an excellent mix of important principles with real case study examples for a better understanding on a rather sophisticated finance subject Edward M Dudley Vice President General Auditor ABB Americas The role of private equity firms in financing buyouts as well as providing growth capital has expanded significantly in the past decade In a clear concise way Harold Bierman provides a timely and astute analysis of the virtues of private equity as well as creative quantitative methodologies that are applicable to real life transactions This book should become essential reading for investors intermediaries financial advisors and the management of private almost private or soon to be private firms James A Rowan Jr Managing Director Investment Banking Legg Mason Wood Walker Inc As the private equity asset class has grown to over 300 billion in the last three years Bierman analyzes the fundamentals behind the investment decisions of this increasingly important sector Once completing the book you will understand the fundamental analytical framework underlying private equity investment Peter Nolan Partner Leonard Green and Partners In looking at the private equity arena Professor Bierman has brought together a diverse group of metrics and valuation formulas into a single text The book provides a valuable combination of academic theory and real life case studies It provides many insights Peter H Vogel Vice President MeadWestvaco Corporation **The New Tycoons** Jason Kelly, 2012-08-02 Inside the Trillion Dollar Industry That Owns Everything What do Dunkin Donuts J Crew Toys R Us and Burger King have in common They are all currently or just recently were owned operated and controlled by private equity firms The New Tycoons Inside the Trillion Dollar Private Equity Industry That Owns Everything takes the reader behind the scenes of these firms their famous billionaire founders the overlapping stories of their creation and evolution and the outsized ambitions that led a group of clever bankers from small shops operating in a corner of Wall Street into powerhouse titans of capital This is the story of the money and the men who handle it Go inside the private worlds of founders Henry Kravis Steve Schwarzman David Bonderman and more in The New Tycoons and discover how these men have transformed the industry and built the some of the most powerful and most secretive houses of money in the world With numerous private equity firms going public for the first time learn how these firms operate where their money comes from and where it goes and how every day millions of customers employees and retirees play a role in that complex tangle of money Author Jason Kelly tells the story of how thirty some years ago a group of colleagues with 120 000 of their own savings founded what would become one of the largest private equity shops in the world completing the biggest buyout the world has ever seen and making them all billionaires in the process Presents a never before seen look inside a secretive and powerful world on the verge of complete transformation as the industry and its leaders gain public profiles scrutiny and political positions Analyzing the founders and the firms at a crucial moment when they ve elevated themselves beyond their already lofty ambitions into the world of public opinion and valuation New Tycoons looks at one of the most important yet least examined trillion dollar corners of the global economy

and what it portends for these new tycoons *The Myth of Private Equity* Jeffrey C. Hooke, 2021-10-05 Once an obscure niche of the investment world private equity has grown into a juggernaut with consequences for a wide range of industries as well as the financial markets Private equity funds control companies that represent trillions of dollars in assets millions of employees and the well being of thousands of institutional investors and their beneficiaries Even as the ruthlessness of some funds has made private equity a poster child for the harms of unfettered capitalism many aspects of the industry remain opaque hidden from the normal bounds of accountability *The Myth of Private Equity* is a hard hitting and meticulous exposé from an insider's viewpoint Jeffrey C Hooke a former private equity executive and investment banker with deep knowledge of the industry examines the negative effects of private equity and the ways in which it has avoided scrutiny He unravels the exaggerations that the industry has spun to its customers and the business media scrutinizing its claims of lucrative investment returns and financial wizardry and showing the stark realities that are concealed by the funds self mythologizing and penchant for secrecy Hooke details the flaws in private equity's investment strategies critically examines its day to day operations and reveals the broad spectrum of its enablers A bracing and essential read for both the financial profession and the broader public this book pulls back the curtain on one of the most controversial areas of finance
