CURRICULUM REFORM IN PAKISTAN Amna Afreen,2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country s problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why

don't they work to end the disparity of quality education between classes in Pakistan? Instead, many elites run their own lucrative elite Islamic schools. More importantly, why do the ulama, which literally means those who possess knowledge, particularly of Islam, maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions? Why are the ulama silent in the face of ruthless murder and discrimination against Pakistani minorities?

Book Review: Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions, intolerance, and conflicts. Dr. Amna Afreen documents the political, socio-economic, and religious causes, limited government funding, widespread poverty and illiteracy, and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools, madrasa, and offers a series of potential solutions and reforms.

John L. Esposito, University Professor and Founding Director of The Alwaleed Center for Muslim-Christian Understanding, Georgetown University. **Economic Integration in South Asia** Muinul Islam, Nitai Chandra Nag, 2010. Economic Integration in South Asia: Issues and Pathways is one of the volumes of the series titled Imagine a New South Asia presented by ActionAid International Asia. This volume envisions a new South Asia free from human deprivation and poverty where countries will become successful, proud, and inclusive societies. This book demonstrates how South Asian countries can learn from the best practices in the region as well as from their failures and also by trying to emulate the successful strategies of introducing egalitarian education and health systems of East Asia, China, and Southeast Asian countries. Rich in analysis and research, this volume seeks an alternative, people-centered perspective and takes into account all those voices that have so long been unheard in policy-making processes through reviews of case studies. Not only will the findings of this volume be useful in conducting campaigns for appropriate policy and mindset changes, but these will also eventually make the emergence of a highly integrated South Asia truly possible.
