**Molecular Red**  
McKenzie Wark, 2015-04-21

In *Molecular Red* McKenzie Wark creates philosophical tools for the Anthropocene, our new planetary epoch in which human and natural forces are so entwined that the future of one determines that of the other. Wark explores the implications of Anthropocene through the story of two empires: the Soviet and then the American. The fall of the former prefigures that of the latter. From the ruins of these mighty histories, Wark salvages ideas to help us picture what kind of worlds collective labor might yet build. From the scientific pioneers who were trying to transform science during the Russian Revolution to visionaries contemplating cyborg possibilities and science fiction dreams in late 20th century California, *Molecular Red* not only looks at the crisis of climate change that we face but also how we might be able to understand it and how we might salvage some hope out of the wreckage.

*Capital Is Dead* McKenzie Wark, 2021-02-09

It's not capitalism, it's not neoliberalism, what if it's something worse? In this radical and visionary new book, McKenzie Wark argues that information has empowered a new kind of ruling class. Through the ownership and control of information, this emergent class dominates not only labor but capital as traditionally understood as well. And it's not just tech companies like Amazon and Google. Even Walmart and Nike can now dominate the entire production chain through the ownership of not much more than brands, patents, copyrights, and logistical systems. While techno-utopian apologists still celebrate these innovations as an improvement on capitalism for workers and the planet, it's worse. The new ruling class uses the powers of information to route around any obstacle: labor and social movements put up. So how do we find a way out? *Capital Is Dead* offers not only the theoretical tools to analyze this new world but ways to change it. Drawing on the writings of a surprising range of classic and contemporary theorists, Wark offers an illuminating overview of the contemporary condition and the emerging class forces that control and contest it.
