**Nordic Equality and Anti-Discrimination Laws in the Throes of Change** Anne Hellum, Ingunn Ikdahl, Vibeke Strand, Eva-Maria Svensson, 2023-08-18 The Nordic states were among the first in the world to enact general gender equality and anti discrimination laws with low threshold enforcement mechanisms Today the Nordic countries top the World Economic Forum's Gender Gap Index but they have still not succeeded in closing the gender gap This book draws a diverse and complex picture of the long uneven and unfinished process towards substantive equality in four Nordic countries Sweden Finland Norway and Iceland It presents the Nordic gender equality model's systematic use of three measures overarching gender policies legislation that has an explicit or implicit impact on gender relations and gender equality and anti discrimination laws with low threshold enforcement systems What potentials and limitations do the Nordic gender equality and anti discrimination law regimes have to combat individual discrimination and structural inequality Can these regimes function as a driver of political legal economic cultural and social change and as a corrective to laws policies and practices that uphold existing inequalities and if so to what extent Can weaknesses in the equality and anti discrimination laws and the way they are enforced hamper efforts to close remaining gender gaps Rather than looking at the Nordic gender equality laws and policies in isolation the book situates their development and transformative potential within a changing European and international political and legal landscape
