Farsighted investors will realize enormous profits by investing in companies that benefit from Asia's historic transformation. In *The Silk Road to Riches*, a team of world-class financial analysts and newsletter editors point you to the right companies, the right sectors, and the right strategies. The authors offer powerful support for several provocative claims: that India, not China, is Asia's best investment destination; that the price of gold is poised to explode; and much more. They illuminate global economic changes that will decide the fate of the U.S. dollar as the world's reserve currency and present an up-to-the-minute overview of crucial global security issues. Every investor must understand, no matter where they invest.
