
MEDICAL CODING TRAINING - AAPC CPC LATEST 2025-2026 EXAM UPDATE QUESTIONS AND ANSWERS

Jobs for medical coders - Answer-Medical coding is a technical and rapidly changing field that offers a variety of career opportunities. Skilled coders may become consultants, educators, or medical auditors.

The difference between hospital and provider services - Answer-Outpatient coding pertains to provider services. Coders use CPT, HCPCS level two, and ICD - 10 - CM codes. Outpatient facility coders also use ambulatory payment classification a PCS.

Inpatient facility coders use ICD - 10 - CM and ICD - 10 - PCS codes. These coders also use MS - DRG for reimbursement. Coders usually have more interaction with providers throughout the day and must communicate well with them; inpatient coders tend to have less interaction directly with providers throughout the day.

How a provider office works and how the coder fits - Answer-When a patient visits a medical practice, a front desk person typically obtains insurance and demographic information, or this information is entered electronically before the visit. After the information has been entered into the practice management system the provider sees the patient. The provider documents to visit in the patient's medical record and completes an encounter form, or a form to relay the services rendered, to the front
