Welcome to BCGControlBar Pro for MFC!
This demonstration shows you how to create a Microsoft Office-style MFC application.
At the top of application, you see MS Office 2007/2010/2013/2016-style Ribbon Bar. You can change the Ribbon appearance by clicking "Style" menu button on the Ribbon right side. We've created the Ribbon Bar using our advance WYSIWYG Ribbon Designer.
The Message Bar is located below the Ribbon.
On the left side you see "Clipboard" docking pane. This view includes MFC dialog bar with resizable layout and skins support.
On the right side, you see two docking panes: "Product Sales", which contains a Chart control and "Sales Report" with embedded Grid control.
The Status Bar is located at the bottom and has various status panes such as hyperlink, animation, progress bar, buttons group and slider.
Please note that not all controls that are present in this demo are functional: some of them added for the demonstration purposes only and do nothing.
