Chapter 4-Climate

Answer: Latitude, altitude, pressure and wind system, distance from the sea, continentality, ocean currents and relief features are the controls affecting the climate of India.

(ii) Why does India have a monsoon type of climate?

Answer: India has a monsoon type of climate because its climate is strongly influenced by monsoon winds.

(iii) Which part of India does experience the highest diurnal range of temperature and why?

Answer: The Great Indian Desert located in the northwestern part of India experiences ' the highest diurnal range of temperature because this region has low vegetation cover and the land is covered with sand. Sand absorbs heat quickly during the day and loses heat very quickly at night. As a result, there is a day temperature may rise to 50°C and drop down to nearly 15°C the same night. It is also away from the sea. Thus, there is a wide difference between day and night temperatures in this region.

(iv) Which winds account for rainfall along the Malabar coast?

Answer: The Malabar Coast receives rainfall from the South West monsoon winds.

Climate Change Solutions and Environmental Migration Anna Ginty,2021-04-20 This book lifts the taboo on maladaptation a different driver of environmentally induced migration which shines a light on the negative consequences arising from the solutions to climate change adaptation and mitigation policies Through a systematic analysis and critique of existing mitigation and adaptation polices under the United Nations Framework Convention on Climate Change UNFCCC and international development community and supplemented by a small empirical study in Indonesia this book catalogues how maladaptation is manufactured under existing climate change

solutions It posits that customary communities in general and women in particular are disproportionately affected by the dominant market driven logics that underscore current climate change solutions adopted by the UNFCCC The injustice of maladaptation is highlighted as multi faceted and explored using political economic social and ecological lenses and the concept of environmental reintegration is also explored as a possible solution to this issue Further possibilities are then presented in the Afterword as a combination of what the new post neoliberalism conjuncture could potentially look like This volume will be of great interest to students scholars and practitioners of climate change environmental policy environmental migration and displacement development studies I NGOs and civil society actors and activists more broadly
