Do a Proper Planning

Your first step is to do a proper planning. It will enable you to get focused and keep you on track. Make sure how much your assignment is worth and what fraction of the final market it is. By this way, you will be able to decide how much time you have to need to spend.

Check the Marking Schedule

It is good to be aware of the marking schedule to see what your lecturer consider when marking your work. You will also get to know how the marks will be assigned. Thus, you can understand what you should focus on when writing the assignment. If you cannot find the marking schedule, you should check the assignment question in order to see whether the information is available there.

Things to Do

Before you begin to write, make sure what you should do to complete the [writing assignment](#). For this, think about the reference checking, what research you should do, writing drafts, reviewing and proofreading, etc. Break all these tasks into a list of tasks to do. Fix a schedule for each task.

Analyse the Question

Before going to write an answer to a question, get the exact meaning of the question. Read it slowly and carefully. Discuss what the topic is about, what is the question all about, what does it mean, what I need to do. Such discussion will help you understand the question, and you can write the right answer.
