China's Fintech Explosion Sara Hsu,Jianjun Li,2020-08-04

Financial technology or fintech is gaining in popularity globally as a way of making financial services more efficient and accessible. In rapidly developing China, fintech is taking off, catering to markets that state-owned banks and an undersized financial sector do not serve, amid a backdrop of growing consumption and a large tech-savvy millennial generation. It is becoming increasingly likely that some of China's fintech firms will change the way the world does business. In *China's Fintech Explosion*, Sara Hsu and Jianjun Li explore the transformative potential of China's financial technology industry, describing the risks and rewards for participants as well as the impact on consumers. They cover fintech's many subsectors, such as digital payment systems, peer-to-peer lending, and crowdfunding, credit card issuance, internet banks, blockchain finance, and virtual currencies, and online insurance. The book highlights the disruption of traditional banking as well as the risks of fintech and regulatory technology. Hsu and Li describe major companies, including Alipay and Tencent developer of WeChat Pay, and a wealth management business, and other leading fintech firms such as Creditease, Zhong An Insurance, and JD Finance. Offering expert analysis of market potential, risks, and competition, as well as case studies of firms and consumer behavior, *China's Fintech Explosion* is a must-read for anyone interested in one of the world's breakout sectors. **Big Data at Work** Scott Tonidandel, Eden B. King, Jose M. Cortina, 2015-11-06

The amount of data in our world has been exploding, and analyzing large data sets, so-called big data, will become a key basis of competition in business. Statisticians and researchers will be updating their analytic approaches, methods, and research to meet the demands created by the availability of big data. The goal of this book is to show how advances in data science have the ability to fundamentally influence and improve organizational science and practice. This book is primarily designed for researchers and advanced undergraduate and graduate students in psychology, management, and statistics.
