Ruffner,2023-01-25 Although organizations frequently proclaim the desire for change renewal and transformation few ever fully embrace those ideas failing to rise above more than mere mediocrity and never realizing even a fraction of their true potential Certainly many pontificate on the nature of organizations as they live and breathe so to speak yet few question how the organization ought to be This ought belies the existential and ethical dimensions of organizing and as such points to a discipline not often associated with the organizational realm theology To this end the concept of the kenotic organization offers a much needed antidote to the syndrome described above Drawing on the divine Trinitarian kenosis observed in the creation event and witnessed in the Incarnation the simultaneous actions of self limiting and pouring out inform the organizational cause and expose a deeply entangled organizational mesh enveloping the entire cosmos which can serve as a catalyst to excite preferred organizational behaviors It is in fact the humility of Trinitarian kenosis the willingness to withdraw but also at once pour out the individual essence that generates the thrust necessary to escape the gravitational pull of convention which typical inhibits organizational flourishing
