A Journey into America

Blue Highways

William Least Heat Moon

Blue Highways:

Blue Highways William Least Heat Moon, 1991 William Least Heat Moon's journey into America began with little more than the need to put home behind him. At a turning point in his life he packed up a van he called Ghost Dancing and escaped out of himself and into the country. The people and the places he discovered on his roundabout 13 000 mile trip down the back roads, blue highways and through small forgotten towns are unexpected, sometimes mysterious and full of the spark and wonder of ordinary life. Robert Penn Warren said He has a genius for finding people who have not even found themselves. The power of Heat Moon's writing and his delight in the overlooked and the unexamined capture a sense of our national destiny, the true American experience. *BLUE HIGHWAYS Revisited* Edgar I. Ailor, Edgar I. Ailor (IV.), 2012-05-25 In 1978 William Least Heat Moon made a 14 000 mile journey on the back roads of America visiting 38 states along the way. In 1982 the popular *Blue Highways* which chronicled his adventures was published. Three decades later Edgar Ailor III and his son Edgar IV retraced and photographed Heat Moon's route culminating in *Blue Highways Revisited* released for publication on the thirtieth anniversary of *Blue Highways*. A foreword by Heat Moon notes The photographs often with amazing accuracy capture my verbal images and the spirit of the book. Taking the journey again through these pictures I have been intrigued and even somewhat reassured that America is changing not quite so fast as we often believe. The photographs happily reveal a recognizable continuity but for how much longer who can say and I'm glad the Ailors have recorded so many places and people from *Blue Highways* while they are yet with us. Through illustrative photography and text Ailor and his son capture once more the local color and beauty of the back roads, cafes, taverns and people of Heat Moon's original trek. Almost every photograph in *Blue Highways Revisited* is referenced to a page in the original work. With side by side photographic comparisons of eleven of Heat Moon's characters this new volume reflects upon and develops the memoir of Heat Moon's cross country study of American culture and spirit. Photographs of Heat Moon's logbook entries, original manuscript pages, Olympia typewriter, Ford van and other artifacts also give readers insight into Heat Moon's approach to his trip. Discussions with Heat Moon about these archival images provide the reader insight into the travels and the writing of *Blue Highways* that only the perspective of the author could provide. *Blue Highways Revisited* reaffirms that the blue highway serves as a romantic symbol of the free and restless American spirit as the Ailors lose themselves to the open road as Heat Moon did thirty years previously. This book reminds readers of the insatiable attraction of the blue highway. But in those brevities just before dawn and a little after dusk, times neither day or night, the old roads return to the sky some of its color. Then in truth they carry a mysterious cast of blue and it's that time when the pull of the blue highway is strongest when the open road is beckoning a strangeness, a place where a man can lose himself. Introduction to *Blue Highways* **Blue Highways** William Least Heat-Moon, 2012-04-03 Hailed as a masterpiece of American travel writing *Blue Highways* is an unforgettable journey along our nation's backroads. Ecospatiality explores modern and contemporary American prose literature through the lens of place showing how authors like William Least Heat Moon Willa Cather Richard Wright and Leslie Marmon Silko represent and reimagine real places in the world and the human environment relationships therein Building on the work of scholars in geography sociology ecocriticism and geocriticism this book articulates the theory of ecospatiality an understanding of place as simultaneously spatial ecological and historical In our current historical moment which is characterized by ongoing ecological collapse and a not unrelated increase in social disorder few issues are more urgent than the human relationship with our environments Whether we characterize this new epoch as the climate change era or the Anthropocene we can no longer ignore the fact that the places we live are rapidly changing in response to economic and environmental pressures Rather than thinking of place as a neutral site for social interaction we should recognize how it underpins and intertwines with human experience Fortunately literature can help us think through how place operates Lowell Wyse shows that texts can be understood as works of literary cartography Focusing on works of nonfiction and fiction whose primary settings are on the North American continent Ecospatiality demonstrates how these narratives rely on realistic literary geography to invoke and sometimes retell important aspects of environmental history within particular communities and bioregions **The American Idea** Robert Vare, Daniel B.
