is presented and approached as a multidimensional entity particularly as the sum of lexico syntactic and socio linguistic elements The following chapters provide a description of the main characteristics of conversational English based on corpus informed grammars and publications The final chapter analyses twenty ESL textbooks in order to determine how corpus data has influenced the materials designed for the acquisition of conversational discourse *The Routledge Handbook of Metaphor and Language* Elena Semino,Zsófia Demjén,2016-11-03 The Routledge Handbook of Language and Metaphor provides a comprehensive overview of state of the art interdisciplinary research on metaphor and language and maps out future directions of research and practice in a variety of contexts in this field *Proficiency Masterclass : Student's Book* Kathy Gude,Michael Duckworth,1994 Expressive Techniques AA.VV.,2015-02-04 This workbook aims at examining and practicing different writing techniques working on different text types which mostly appear here in the form of articles letters and brochures Prior to the proper use of a writing technique it is important both to recognize the purpose of the source text and to clarify the predominant function that the text vehicles With regard to this a complex but practical analysis is provided by Jakobson s model of communication which explains communication by means of six factors and related communicative functions **Proficiency Masterclass: Student's Book** Louis Rogers,Kathy Gude,Michael Duckworth,2015-04-30
