Radical Metaphysics Richard Schain,2003-02-20 Radical Metaphysics is a project of existential thought aiming to establish the reality of the metaphysical dimension of the mind The author opposes the prevailing materialist monism of current times with an appeal to the intuition of a metaphysical self historically called the soul This book argues that the creative power of the mind is at the heart of reality for homo sapiens abdication of this capacity in the modern world is nothing else than trading one s metaphysical birthright for a mess of reality poor technological pottage The will to development is described as the basic manifestation of the metaphysical self A cosmivision is espoused which involves an extratemporal firmament of metaphysical being

Juan-Miguel Fernandez-Balboa,1997-01-01 This book proposes alternative ways of looking at human movement and brings into question the traditional role of the human movement profession as an agent of social and cultural reproduction The authors argue that the profession has traditionally shaped physical activities in schools and communities in disempowering ways and has adversely influenced how people view their bodies apply physical activities to their lives and use and understand the knowledge in the field To raise awareness of the possibilities of postmodernism for human movement the contributors employ a critical postmodern conceptualization of the profession to explore the conflicts within it to ask what can be done to strengthen it to investigate how professional relations and meanings can be constructed within a new realm of justice freedom and equity and to discuss the professional and civic principles to which the profession should subscribe
