Foreword

The unit is manufactured, checked and supplied in accordance with our published specification, and when installed and used in normal or prescribed applications, with the lid in place and within the parameters set for mechanical and electrical performance, will not cause danger or hazard to life or limb.

Warning: Units must be selected and installed by suitably trained and qualified personnel in accordance with appropriate codes of practice so that the possibility of failure resulting in injury or damage caused by misuse or misapplication is avoided.

Warning: Before installation **check** that the instrument **characteristics** comply with process and plant requirements.

Warning: The user should ensure the equipment is suitable for use in the application with aggressive substances.

Warning: The users attention is drawn to the fact that, when the unit is "live" with respect to electrical or pressure supplies, a hazard may exist if the unit is opened or dismantled.

Warning: Where any special condition of the product has been required as identified by the last 4 digits of the part number, follow the necessary safety instruction for a correct installation.

Allowed over range

Pressure exceeding the adjustable range can be allowed up to the max pressure stated on the nameplate.

Transitory electrical over ranges can have a destructive effect on the microswitch.

Ambient temperature

The surface temperature of the instrument is influenced by the process temperature, electrical working conditions, installation and environmental. Special attention must be taken to avoid exceeding the limits specified on table below (i.e. remote mounting, valves, siphons, diaphragm seals. See Mounting).
