Management Fundamentals , **Sustaining Mobile**

Learning Wan Ng, Therese M. Cumming, 2015-07-16 Mobile technologies are one of the fastest growing areas of technology in education. For learners they offer an appealing opportunity to transcend teacher-defined knowledge and approaches by being able to access multiple alternative sources of information anytime and anywhere. While the pace of engagement with and research into the educational applications of mobile technologies has picked up dramatically in the last decade, there is no consolidated view of how to sustain the practices or opportunities that are being explored. Sustainability is a complex but crucial issue in mobile learning as educational institutions are usually required to make substantial investments in mobile devices and associated technologies, time, and training to initiate mobile learning programs. The complexity of sustainable mobile learning programs is further exacerbated by the fast pace of change of digital technologies where, with every change, new possibilities are opened up and investments required. In addition, educators are still attempting to reconcile institutions of formal education with informal mobile learning. The book addresses these issues with a particular focus on exploring the challenges surrounding the sustainability of mobile learning in K-12 and higher education, investigating the importance of sustaining mobile learning for diverse populations of students globally, discussing theoretical models for the sustainability of mobile learning, providing the reader with strategies for sustaining mobile learning. Presenting new research alongside theoretical models and ideas for practice, the book will appeal to researchers, academics, and postgraduate students in the fields of education and mobile learning, as well as those working in teacher education.

Behavior in Organizations Jerald Greenberg,Robert A. Baron,2003 Organizational Behavior The Ultimate Reality Show Three years ago when the previous edition of this book was published Enron and WorldCom were successful and highly acclaimed companies involvement in a dot corn was an assured path to riches and September ii was just a date on the calendar Today that s all changed In a very short time it s become a different world especially the business world Companies that once moved from bricks to clicks today are returning to bricks but are keeping the clicks as well Many organizations that downsized in a sagging economy subsequently rehired employees only to downsize once more And workplaces that used to be considered safe havens from the uncertainties of a sometimes evil world today are considered far more vulnerable than ever Because the field of OB is constantly adjusting to reality we think of it and this book as the ultimate reality show As in the TV show Survivor only the most adaptable individuals and teams in the workplace can be expected to make it to tomorrow And as in the TV show Big Brother relationships with other people also hold the key to success at work Finally just as winners in these television programs stand to receive large sums of money and are likely to enjoy the experience of playing the game so too do employers and employees benefit financially and personally when they have mastered OB Unlike these so called reality shows with their carefully scripted scenarios and meticulously chosen casts however behavior in organizations is reality Its effects are ongoing and profound And this is why we consider it to be the ultimate in reality and why we put so much care into preparing this book

Topic Coverage Old and New You would not have a serious OB book without paying attention to Weber s concept of bureaucracy Maslow s need hierarchy theory and dozens of other classic theories and studies Such works are to be found on these pages Competing for space are an equal number of more contemporary approaches to OB that also have received our attention Consider for example just a few of the many new topics covered in this book Ethics audits corporate social responsibility e training Chief Knowledge Officer successful intelligence emoticons organizational compassion religious intolerance cyber venting and much more
