Special Operations* Facundo Conforti, The maneuvers of an Airbus A320 are extremely simple during normal operations They may present minimal complexity during abnormal operations but the aircraft is extremely easy to fly On the other hand there are special operations that require a higher level of attention and these are not necessarily abnormal operations or emergencies but rather uncommon operations such as flights in wind shear volcanic ash among others In this work you will learn all the details of each of these special operations which will take your understanding of A320 flight to the next level *Airbus A320 Encyclopedia* Facundo Conforti,2022-03-07

In a constantly growing aeronautical industry the demand for professional pilots is increasing Year after year thousands of applicants come to the airlines looking for a job but only a small fraction of them get the job and of that small fraction only a very select group are the pilots who manage to develop their professional careers in a company The other pilots don t get achieve their goals for different reasons one of them is the lack of knowledge that leads them to face challenges that they cannot overcome In this guide we will try to provide each reader with the necessary tools to learn all the most relevant aspects of one of the most flying commercial aircraft in the world A complete guide that covers the knowledge of all the aircraft s systems the Airbus flight philosophy and a complete analysis of the operation of the FMS flight system

where the reader will learn to operate the flight computer effectively and in various situations that may occur in real life. Finally you will learn all about a normal operation in a complete day as a pilot in command of A320. After learning the contents of this A320 encyclopedia the pilot will arrive at the new job with a solid knowledge of the aircraft he will fly and this will make his learning process within the airline reach the highest academic and professional level. **Operation of Aircraft: International commercial air transport-aeroplanes** International Civil Aviation Organization.
