Introduction

A genogram is a representation of different relationships and medical conditions within a particular family. Therefore, a genogram uses symbols and different colors to aid users in visualizing different family relationships, social relationships, emotional relationships, and the hereditary patterns within a given family (Santrock, 2010, p. 7). In addition, a genogram shows the psychological factors that influence relationships in various families. As a result, a genogram assesses the hereditary and behavioral patterns, which are usually repetitive within lineages.

Conversely, a genogram is useful in genealogy, psychology, family therapy, psychiatry, and education because it helps different practitioners in these fields to explain various family dynamics and medical conditions concerning their clients. Therefore, a genogram helps psychologists to obtain information concerning clients and their families so that they can address various issues involving their clients from the perspective of the prevailing emotional relationships, family relationships, hereditary patterns, and marital relationships (Santrock, 2010). This essay presents a summary and analysis of my family's genogram by assessing the interaction and the impact of environmental factors, genetics, and heredity on my family and me.

A Summary of my Family Genogram

My family has several strengths particularly in education, which can be traced back to my paternal grandparents and my mother who is an educationist to date. Therefore, education was held with high esteem in my family, and getting educated was very crucial to us. As a result, my sibling and I attended college whereby we obtained a good education. On the other hand, my father served in the Army, and from that environment and experience, I also served in the Army for more than two decades. Additionally, I inherited some physical features from my parents and grandparents such as my round-shaped head and dimples in my cheeks, which can be traced back to my grandmother and mother respectively. Moreover, I am five feet and nine inches tall and I think that I took the height from my father who is six feet and three inches tall.
