FUNDING REQUIRED

How much money do you need to start and operate the business?

One Page Business Plan 100 Startup

Alan M. Davis

One Page Business Plan 100 Startup:

Entrepreneurship in the Creative Industries Phillip McIntyre, Janet Fulton, Susan Kerrigan, Michael Meany, 2023-03-03

This book provides a critical perspective on entrepreneurialism in the creative industries. Split into three sections, the book first asks the contextual question: why at this point in time did we arrive at such a focus on entrepreneurship in the creative industries? Examining the historical, social, cultural, economic, and political background, the book places the creative industries and entrepreneurship firmly within a systemic approach to creativity and cultural production. Given this emphasis on entrepreneurship in the creative system, the second part of the book asks: what do those who want to work in the creative industries need to do to pragmatically gain an income? The practices, skills, business models, and plans necessary to master in order to successfully run a business are explored in this section. The final section contains detailed case studies that reveal the lives of those who found a way to successfully gain an income in the creative industries. It highlights the practical knowledge they gathered, how they negotiated their field of endeavour, and the decisions they made in the real world. Fundamentally, the book answers three questions: How and why did we get here? Given that we are here at this point in time, how do we go about being entrepreneurial? And who has managed to do this in the creative industries, and how did they do it? Covering both theoretical debates in detail and practical case studies in key sub-sectors of creative industries, this truly integrative and far-reaching volume will be of interest to students, researchers, and practitioners alike.

Crack the Funding Code Judy Robinett, 2019-02-05. *Crack the Funding Code* demystifies the world of angel investing, venture capital, and corporate funding and lays out a strategic pathway for any entrepreneur to secure funding fast. Lack of funding is one of the biggest reasons small businesses fail. In 2016, in the United States alone, more than 31 percent of small business owners reported that they could not access adequate capital, and the lack of capital prevented them from growing the business, expanding operations, increasing inventory, or financing increased sales. This book will show you how to find the money, create pitches that attract investors, and then structure fair, ethical deals that will bring them new sources of outside capital and invaluable professional advice. *Crack the Funding Code* gives you the broader perspective on how funding works, how investors think, and what they need to hear to put their money where your mouth is. Every entrepreneur who reads this book will get easy-to-follow deal checklists, a roadmap of where and how to locate the best funding resources, and top business mentors for their industry or geographical location, and a step-by-step process to create pitches that make their idea or business irresistible.
