See Being a Diver I - Water Pressure and Air Volume Effects. - -2) I blow up a balloon, tie it off, and take it to the bottom of the swimming pool. What will happen to the balloon and the air inside it?

A The balloon will get bigger and the air inside the balloon will be less dense (molecules move further apart).

B The balloon will get smaller and the air inside the balloon will be more dense (molecules move closer together).

C The balloon will get bigger and the air inside the balloon will be more dense.

D The balloon will get smaller and the air inside the balloon will be less dense.
