Closed Sicilian:

The Closed Sicilian Vaidyanathan Ravikumar,1993 **The Closed Sicilian** Carsten Hansen,2017-06 In the Closed Sicilian an awareness of the strategies and plans is far more important than the simple memorising of variations White s play is logical and the basic ideas are simple to master **Starting Out:** Richard Palliser,2006-06-01 International Master Richard Palliser studies the Closed Sicilian in a clear cut way introducing the crucial initial moves and ideas and taking care to explain the reasoning behind them something that is sometimes neglected or taken for granted **My First Chess Opening Repertoire for White** Vincent Moret,2016-05-11 Every chess player needs to decide which openings he is going to play But where do you start The risk of drowning in the turbulent sea of opening theory is only too real for beginning amateurs Often your goals and ambitions will be misguided Trying to win in 20 moves copying what s in fashion among top GM s or memorizing variations are a waste of time Most likely you will never play your preparation or end up by jumping from one opening to the other Experienced French chess trainer Vincent Moret provides a complete ready to go chess opening repertoire for White with a sound set of lines that do not outdate rapidly do not require memorization and are easy to digest for beginning players and other amateurs In this complete and user friendly guide Moret has selected relatively aggressive variations that will enhance your tactical vision To show the typical plans and demonstrate underlying ideas and key motifs Moret not only selected games of Grandmasters For instructional purposes he also uses games of young players to highlight the errors they tend to make *Chess Opening Essentials* Stefan Djuric,Dimitry Komarov,Claudio Pantaleoni,2015-09-01 Most chess opening books are either too detailed or too shallow Chess Opening Essentials has exactly the right balance and is an accessible primer and a reference book at the same time It gives a flavor of how every opening works and points at the various middlegame plans that apply after the opening has ended Chess Opening essentials helps beginners to develop a solid understanding of fundamental opening ideas gives casual players the ability to choose the opening that suits their style and taste and is a tool for club players to test and review their opening repertoire as well as a reference book to which advanced players keep returning The authors do not propagate forcing tactical variations to be memorized mechanically but explain what you should actually be trying to achieve when playing the opening of your choice They include the main alternative responses and give clear indications for further study **Anti-Sicilians:** Cyrus Lakdawala,2016-05-01 This series provides an ideal platform to study chess openings By continually challenging the reader to answer probing questions throughout the book the Move by Move format greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of opening knowledge Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn This is an excellent way to study any chess opening and at the same time improve your general chess skills and knowledge Anyone who plays the Sicilian Defence as Black must be prepared to meet a whole host of options for White known as the Anti Sicilians These includes
