From Rationalism to Existentialism Robert C. Solomon, 2001 In this enduring text renowned philosopher Robert C Solomon provides students with a detailed introduction to modern existentialism He reveals how this philosophy not only connects with but derives from the thought of traditional philosophers through the works of Nietzsche Kierkegaard Husserl Heidegger Sartre and Merleau Ponty Thus existentialism emerges from the school of rational thought as a logical evolution of respected philosophy

Passion, Death, and Spirituality Kathleen Higgins, David Sherman, 2012-05-30 Robert C Solomon who died in 2007 was Professor of Philosophy and Quincy Lee Centennial Professor of Business at the University of Texas USA As the first book comprehensively to examine the breadth of Solomon s contribution to philosophy this volume ranks as a vital addition to the literature It includes a newly published transcript of Solomon s last talk which responded to Arindam Chakrabarti on the concept of revenge as well as the considered views of prominent figures in the numerous subfields in which Solomon worked The content analyses his perspectives on the philosophy of emotion virtue business ethics and religion in addition to philosophical history existentialism and the many other topics that held this prolific thinker s attention Solomon memorably defined philosophy itself as the thoughtful love of life and despite the diversity of his output he was most drawn by central questions about the meaning of life the essential role that emotions play in finding that meaning and the human imperative to seek emotional integrity in which one s thoughts emotions and actions all contribute to a coherent narrative The essays included here draw attention to the interconnections between the issues Solomon addressed and evince the manner in which he embodied that integrity living a life at one with his philosophy They emphasize the central themes of passion ethics and spirituality which threaded through his work and the way these ideas informed his views on how we should approach grief and death The multiplicity of topics alone make this keystone work an enlightening read for a full spectrum of students of philosophy providing much to ponder and recounting a subtle and shining example of the emotional integrity Solomon worked so hard to define

From Hegel to Existentialism Robert C. Solomon, 1987 A

collection of the author's articles on key issues in the writings of major European philosophers and thinkers including Hegel Nietzsche Kierkegaard Sartre and Camus *Existentialism* Robert C. Solomon, 1974 [Dark Feelings, Grim Thoughts](#) Robert C. Solomon, 2006-07-27 In the same spirit as his most recent book *Living With Nietzsche* and his earlier study *In the Spirit of Hegel* Robert Solomon turns to the existential thinkers Albert Camus and Jean Paul Sartre in an attempt to get past the academic and political debates and focus on what is truly interesting and valuable about their philosophies Solomon makes the case that despite their very different responses to the political questions of their day Camus and Sartre were both fundamentally moralists and their philosophies cannot be understood apart from their deep ethical commitments He focuses on Sartre's early pre 1950 work and on Camus's best known novels *The Stranger* *The Plague* and *The Fall* Throughout Solomon makes the important point that their shared interest in phenomenology was much more important than their supposed affiliation with existentialism Solomon's reappraisal will be of interest to anyone who is still or ever has been fascinated by these eccentric but monumental figures *No Excuses* Teaching Company, 2000-01-01 This lecture course by Professor Robert C Solomon of the University of Texas explores existentialism and the leading writers and philosophers who have been associated with this philosophical movement *An Introduction to Bradley's Metaphysics* W. J. Mander, 1994 F H Bradley was the greatest of the British Idealists but for much of this century his views have been neglected primarily as a result of the severe criticism to which they were subjected by Russell and Moore In recent years however there has been a resurgence of interest in and a widespread reappraisal of his work W J Mander offers a general introduction to Bradley's metaphysics and its logical foundations and shows that much of his philosophy has been seriously misunderstood Dr Mander argues that any adequate treatment of Bradley's thought must take full account of his unique dual inheritance from the traditions of British empiricism and Hegelian rationalism The scholarship of recent years is assessed and new interpretations are offered of Bradley's views about truth predication and relations and of his arguments for idealism This book is a clear and helpful guide for those new to this difficult but fascinating thinker and at the same time an original and stimulating contribution to the re evaluation of his work **The Reception of Husserlian Phenomenology in North America** Michela Beatrice Ferri, 2019-06-05 This book presents a historiographical and theoretical analysis of how Husserlian Phenomenology arrived and developed in North America The chapters analyze the different phases of the reception of Edmund Husserl's thought in the USA and Canada The volume discusses the authors and universities that played a fundamental role in promoting Husserlian Phenomenology and clarifies their connection with American Philosophy Pragmatism and with Analytic Philosophy Starting from the analysis of how the first American Scholars of Edmund Husserl's thought opened the door to the reception of his texts the book explores the first encounters between Pragmatism and Husserlian Phenomenology in American Universities The study focuses then on those Scholars who fled from Europe to America from 1933 onwards to escape Nazism Felix Kaufmann Alfred Schutz Aron Gurwitsch Herbert Spiegelberg Fritz

Kaufmann among the most notable and illustrates how their teaching provided the very basis for the spreading of Husserlian Phenomenology in North America. The volume examines then the action of the 20th Century North American Husserl Scholars together with those places societies centers and journals specifically created to represent the development of the studies devoted to Husserlian Phenomenology in the U S with a focus of the Regional Phenomenological Schools

Exile and Restoration in Jewish Thought Ralph Keen, 2011-10-20 Exile and Restoration in Jewish Thought presents the history of an idea originating at the intersection of Judaic piety and the social history of the Jews faith in a protective sovereign deity amid contrary conditions Exiled primordially Eden during the Patriarchal era in the sixth century bce and from the first century to the twentieth the Jewish experience of alienation has been the historical backdrop against which affirmations of divine benevolence have been constructed While histories of Jewish thought have tended to accentuate the speculative creativity of medieval and modern Jewish philosophers the intellectual tradition can come into focus only with attention to these thinkers understanding of diaspora and persecution Ralph Keen describes the distinguishing feature of Jewish thought as a religious hermeneutic in which the primitive promise made to Abraham is preserved not just as a pious memory but as a certain hope for eventual restoration Intended for readers with some familiarity with the history of philosophy this book offers the historical context necessary for understanding the distinctively Judaic character of this tradition of thought and elucidates the role of religious experience in the long process of negotiating between adversity and expectation

"Fallen from the Symbolic World" Wyatt Prunty, 1990 This volume contains a selection of the readings of contemporary American poets using the phenomenological approaches of Heidegger and Husserl

Hard Right Turn Jerry Carrier, 2015-10-01 In America even the left is right of center just how far right is subject to debate There really is no longer an American left as it has been systematically destroyed This rightward drift is seen in historic events like the Red Scare of the 1920s where thousands of innocent Russian and Jewish Americans were imprisoned and deported by J Edgar Hoover under President Wilson There were plots like the secret financing of Hitler s rise to power by the Rockefeller Harriman and Bush Walker families managed by the Dulles Brothers There was the Businessmen and Banker s Plot to overthrow Roosevelt and install a fascist government in the United States just before WWII There was the OSS CIA cooperation with the Catholic Church in the Ratlines to hide and bring Nazi war criminals into the United States American phobias against communism socialism and the left have allowed those on the right to suppress and eliminate the left and to harass imprison or assassinate its leaders since 1848 The US government has eliminated and assassinated the left and with no counterbalance the country veers further and further to the right In this book Jerry Carrier seeks to define Left as it applies in the United States He traces some of the original influences and provides a succinct history of the American left including the McCarthy witch hunts and the xenophobia of the China Lobby That history includes illegal CIA and FBI

operations to stop the left civil rights anti war Latino Asian Native American gay and women s movements It includes the US intelligence service s long ties to the Mafia and the Unione Corse the French Mafia and their illegal drug activities It includes the assassinations of JFK RFK and MLK It includes the treasonous acts of Nixon and Kissinger to win in 1968 by Reagan and Bush in 1980 and the buying of elections by the Koch Brothers From Rousseau to Obama this book gives the rise and fall of the American left Victims includes Mother Jones Eugene Debs Big Bill Haywood Gus Hall and Angela Davis It includes the assassinations of foreign leaders like Patrice Lumumba and even UN Secretary General Dag Hammarskjold and attempts on Sukarno and Castro as well as dozens of US inspired coups
