Nothing But The Truth

Alexander Dean

Nothing But The Truth:

Nothing but the Truth Steven Lubet, 2001-03-01 Lubet's *Nothing But The Truth* presents a novel and engaging analysis of the role of storytelling in trial advocacy. The best lawyers are storytellers, he explains, who take the raw and disjointed observations of witnesses and transform them into coherent and persuasive narratives. Critics of the adversary system of course have little patience for storytelling regarding trial lawyers as flimflam artists who use sly means and cunning rhetoric to befuddle witnesses and bamboozle juries. Why not simply allow the witnesses to speak their minds without the distorting influence of lawyers' stratagems and feints? But Lubet demonstrates that the craft of lawyer storytelling is a legitimate technique for determining the truth and not at all coincidentally for providing the best defense for the attorney's client. Storytelling accomplishes three important purposes at trial. It helps to establish a theory of the case which is a plausible and reasonable explanation of the underlying events presented in the light most favorable to the attorney's client. Storytelling also develops the trial theme which is the lawyer's way of adding moral force to the desired outcome. Most importantly, storytelling provides a coherent story frame which organizes all of the events, transactions, and other surrounding facts into an easily understandable narrative context. As with all powerful tools, storytelling may be misused to ill purposes. Therefore, as Lubet explains, lawyers do not have carte blanche to tell whatever stories they choose. It is a creative process to be sure, but every story must ultimately be based on nothing but the truth. There is no room for lying. On the other hand, it is obvious that trial lawyers never tell the whole truth since life and experience are boundless and therefore not fully describable. No lawyer or court of law can ever get at the whole truth, but the attorney who effectively employs the techniques of storytelling will do the best job of sorting out competing claims and facts, thereby helping the court arrive at a decision that serves the goals of accuracy and justice. To illustrate the various challenges, benefits, and complexities of storytelling, Lubet elaborates the stories of six different trials. Some of the cases are real, including John Brown and Wyatt Earp, while some are fictional, including Atticus Finch and Liberty Valance. In each chapter, the emphasis is on the narrative itself, emphasizing the trial's rich context of facts and personalities. The overall conclusion, as Lubet puts it, is that purposive storytelling provides a necessary dimension to our adversary system of justice.

Trell: Nothing But the Truth Dick Lehr, 2019-04-09 Trell is an appealingly gutsy heroine whose belief in her father is strong enough to drag an attorney and a down-on-his-luck journalist into her orbit. *School Library Journal*. On a hot summer night in Boston in the late 1980s, a twelve-year-old African American girl was sitting on a mailbox talking with her friends when she became the innocent victim of gang-related gunfire. An immediate manhunt was on to catch the murderer, and a young African American man was quickly apprehended, charged, and wrongly convicted of the crime. Dick Lehr, a former reporter for the *Boston Globe's* famous Spotlight Team who investigated this case for the newspaper, now turns the story into a page-turning novel about the daughter of an imprisoned man who persuades a reporter and a lawyer to help her prove her father's innocence.
