Innovative Systems for Intelligent Health Informatics Faisal Saeed, Fathey Mohammed, Abdulaziz

Al-Nahari, 2021-05-05 This book presents the papers included in the proceedings of the 5th International Conference of Reliable Information and Communication Technology 2020 IRICT 2020 that was held virtually on December 21-22, 2020. The main theme of the book is Innovative Systems for Intelligent Health Informatics. A total of 140 papers were submitted to the conference but only 111 papers were published in this book. The book presents several hot research topics which include health informatics, bioinformatics, information retrieval, artificial intelligence, soft computing, data science, big data analytics, Internet of things, IoT, intelligent communication systems, information security, information systems, and software engineering.

Encyclopedia of Information Systems and Technology - Two Volume Set Phillip A. Laplante, 2015-12-29 Spanning the multi-disciplinary scope of information technology, the Encyclopedia of Information Systems and Technology draws together comprehensive coverage of the inter-related aspects of information systems and technology. The topics covered in this encyclopedia encompass internationally recognized bodies of knowledge including those of The IT BOK, the Chartered Information Technology Professionals Program, the International IT Professional Practice Program, British Computer Society, the Core Body of Knowledge for IT Professionals, Australian Computer Society, the International Computer Driving License Foundation, European Computer Driving License Foundation, and the Guide to the Software Engineering Body of Knowledge. Using the universally recognized definitions of IT and information systems from these recognized bodies of knowledge, the encyclopedia brings together the information that students, practicing professionals, researchers, and academicians need to keep their knowledge up to date.
