*Animation Masterclasses: From Pencils to Pixels* Tony White,2022-11-17 Today it is commonly believed that if you learn software you can become an animator Yet nothing could be further from the truth Master animators are trained and not born Software as is the humble pencil is merely yet another tool through which an animator can apply their knowledge However neither software nor pencils give you that knowledge nor do they do the work for you If you place a fully trained master animator on a computer or give them a pencil they ll astound you with their mastery However if you put a nontrained animator on a computer all you will have is a technician creating moving objects as you ll see all over YouTube and other video platforms This book teaches you exactly how to become a Master Animator whether you ultimately plan to use pencils computers drawing tablets or rigged characters It s a complete course being a collection of 48 masterclasses gleaned from the author s 50 years of experience of top level animating teaching and filmmaking It will also train you in the value and application of observational gesture drawing This book of masterclasses by a master of the art Tony White is entirely designed to be THE definitive reference book for students learning how to make things move well as well as how to create

films once you know how to do so A book for everyone For home based self study students It is a perfect manual to take you from raw beginner to proven animated filmmaker For full time students It is an ideal companion to supplement your full time educational studies which no doubt is overly based on software technology For current animation professionals It is a comprehensive archive of animation tips and techniques that will enable you to take your work to the next level For current animation educators and instructors It is a book that can be the ultimate curriculum and study program enabling your own students to become the master animators of today and tomorrow
