

Chapter 18

Science in context: Building a space elevator

- 1 The advantages of a space elevator are seen in terms of the ease of transfer of astronauts and goods to the space station without the need for rocket launches from the Earth. Indeed, subsequent exploration from the space station would be easier since there would be no need for the technology to escape the Earth's gravity.
- 2 These different forms of carbon all conduct electricity because of the mobile, delocalised electrons associated with the layered structure (see Chapter 3).
