On Deconstruction Jonathan Culler:

On Deconstruction Jonathan D. Culler, 1982 With an emphasis on readers and reading the author considers deconstruction in terms of the questions raised by psychoanalytic feminist and reader response criticism As a result this book is both an authoritative synthesis of Derrida's thought and an analysis of the often problematic relation between his philosophical writings and the work of literary critics

On Deconstruction Jonathan Culler, 1983 Deconstruction Jonathan D. Culler, 2003 It could be argued that deconstruction has to a considerable extent been formed by critical accounts of it This collection reprints a cross section of these important works charting the ways in which deconstruction is conceptualized and demonstrating the impact it has had on a wide range of traditions The essential pieces in this set include writings by Jacques Derrida Jonathan Culler Paul de Man Barbara Johnson and a wide range of key thinkers in areas as diverse as psychoanalysis law gender studies and architecture The major themes covered include Vol 1 Part I What is Deconstruction Part II Philosophy Vol 2 Part III Literary Criticism Part IV Feminism and Queer Theory Vol 3 Part V Psychoanalysis Part VI Religion Theology Part VII Architecture Vol 4 Part VIII Politics Part IX Ethics Philosophical Examinations of Historical and Contemporary Problems Merrill Ring, 2022-08-31 The philosophical essays collected here cover a wide range of topics both historical and contemporary The historical essays are examinations of issues in the work of philosophers from Parmenides to Wittgenstein and Quine while those on contemporary matters are chiefly concerned with the nature of knowledge and belief and the relation of science to philosophy They have been written over a long philosophical career and are models of philosophical investigation and argument

The Pursuit of Signs Jonathan D. Culler, 2002 This widely acclaimed work remains an important and vital work of literary scholarship Covering semiotics reader response criticism and the value of the apostrophe this work provides a detailed analysis of literary criticism

Essays on Heidegger and Others Richard Rorty, 1991 Richard Rorty's collected papers written during the 1980s and now published in two volumes take up some of the issues which divide Anglo Saxon analytic philosophers and contemporary French and German philosophers and offer something of a compromise agreeing with the latter in their criticisms of traditional notions of truth and objectivity but disagreeing with them over the political implications they draw from dropping traditional philosophical doctrines The second volume pursues the themes of the first volume in the context of discussions of recent European philosophy focusing on the work of Heidegger and Derrida

The Pursuit of Signs Jonathan Culler, 2005-11-29 To gain a deeper understanding of the literary movement that has dominated recent Anglo American literary criticism *The Pursuit of Signs* is a must In a world increasingly mediated it offers insights into our ways of consuming texts that are both brilliant and bold *Dancing through semiotics reader response criticism the value of the apostrophe and much more* Jonathan Culler opens up for every reader the closed world of literary criticism Its impact on first publication in 1981 was immense now as Mieke Bal notes the book has the same urgency and acuity that it had then though today it has even wider

implications with the interdisciplinary turn taking hold literary theory itself through this book becomes a much more widespread tool for cultural analysis

Thiselton on Hermeneutics Anthony C. Thiselton, 2006 Hermeneutics is an interdisciplinary study of how we interpret texts especially biblical texts in the light of theories of understanding in philosophy meaning in literary theory and of theology This volume brings together the seminal thought of a leading contemporary pioneer in this field Thiselton's *The Two Horizons* was a classic on how horizons of biblical texts engage creatively with the horizons of the modern world The author's later *New Horizons in Hermeneutics* explored still more deeply the transforming capacities of biblical texts while his massive commentary on 1 Corinthians interpreted an epistle This volume collects many of Anthony Thiselton's more notable writings from some seven books and 70 articles to which he adds his own re appraisals of earlier work It uniquely expounds the thought of a major contemporary British theologian through his own words and includes his own critical assessments

Deconstructing the Kimbell Michael Benedikt, 1991 A clear sighted look at the impact of Derrida and the deconstructionists on contemporary architecture A terrific piece It is a pleasure to read very perceptive lucid and well argued Kenneth Frampton A fine appraisal of a great work of art The advice here is to skip Derrida and get right to Benedikt ABR

Silence and the Rest Sofya Khagi, 2013-08-31 Silence and the Rest argues that throughout its entire history Russian poetry can be read as an argument for verbal skepticism positing a long running dialogue between poets philosophers and theorists central to the antiverbal strain of Russian culture

Barthes Jonathan Culler, 2002-02-21 This acclaimed short study originally published in 1983 and now thoroughly updated elucidates the varied theoretical contributions of Roland Barthes 1915-80 the incomparable enlivener of the literary mind whose lifelong fascination was with the way people make their world intelligible He has a multi faceted claim to fame to some he is the structuralist who outlined a science of literature and the most prominent promoter of semiology to others he stands not for science but pleasure espousing a theory of literature which gives the reader a creative role This book describes the many projects which Barthes explored and which helped to change the way we think about a range of cultural phenomena from literature fashion wrestling and advertising to notions of the self of history and of nature

On Paradox Elizabeth S. Anker, 2022-10-28 In *On Paradox* literary and legal scholar Elizabeth S Anker contends that faith in the logic of paradox has been the cornerstone of left intellectualism since the second half of the twentieth century She attributes the ubiquity of paradox in the humanities to its appeal as an incisive tool for exposing and dismantling hierarchies Tracing the ascent of paradox in theories of modernity in rights discourse in the history of literary criticism and the linguistic turn and in the

transformation of the liberal arts in higher education Anker suggests that paradox not only generates the very exclusions it critiques but also creates a disempowering haze of indecision She shows that reasoning through paradox has become deeply problematic it engrains a startling homogeneity of thought while undercutting the commitment to social justice that remains a guiding imperative of theory Rather than calling for a wholesale abandonment of such reasoning Anker argues for an expanded diversified theory toolkit that can help theorists escape the seductions and traps of paradox

Carry on Bumping John Metcalf, 1988 A fresh group of writers critics booksellers poets and novelists to heap scorn and vilification on Canadian icons such as Margaret Atwood stuffy academics feminist poets Elspeth Cameron contemporary literary theory and The Canada Council Contributors include Hugh Hood Louis Dudek William Hoffer Brian Fawcett Robin Skelton Maggie Helwig and Winslow L D Howard who Vitriol humour and cynicism march together against the shibboleths of Canadian culture All edited by John Metcalf Canada's pre eminent curmudgeon
