Reinforcement and Study Guide

Section 3.1 Communities

In your notebook, read about living in a community.

Determine if the statement is true. If it is not, rewrite the italicized part to make it true.

- The interaction of abiotic and biotic factors result in conditions that are suitable for some organisms but not for others. _____
- Food availability and temperature can be biotic factors for a particular organism. _____
- A limiting factor is any biotic or abiotic factor that promotes the existence, numbers, reproduction, or distribution of organisms. _____
- At high elevations where the soil is thin, vegetation is limited to large, deep-rooted trees. _____
- Factors that limit one population in a community may also have an indirect effect on another population. _____
- Tolerance is the ability of an organism to withstand fluctuations in biotic and abiotic environmental factors. _____
- A population of deer would become larger as conditions move away from optimal toward either extreme of the deer's range of tolerance. _____
- Different species may have different ranges of tolerance. _____

In your notebook, read about succession: change over time.
