*Introduction to Machining Science* G. K. Lal, 2007 About the Book This book is an attempt to consolidate the basic scientific studies in the machining area so that fundamental mechanics and other concepts related to primary machining processes could be understood The book is essentially designed for senior undergraduate mechanical and production engineering students but practicing engineers will also find it useful for tool and product design The topics covered include plastic deformation chip formation tool geometry mechanics of orthogonal and oblique cutting measurement of cutting force cutting temperature tool wear and tool life economics of machining grinding of metals and machining vibrations The analyses presented have been illustrated through numerical examples Review questions and bibliography are also included About the Author Dr G K Lal has been associated with the Indian Institute of Technology Kanpur for the past 34 years He retired as a Professor of Mechanical Engineering in 2003 and had earlier held the positions of Dean 1976-80 and Deputy Director 1982-88 Before joining IIT Kanpur he had taught at the Banaras Hindu University and held research positions at the University of Sherbrooke Canada and the Carnegie Mellon University USA He also worked as a Design Engineer with the Abitibi Paper and Power Corp of Canada

*Advanced Machining Science* Vijay Kumar Jain, 2022-09-30 As machining processes become more advanced so does the science behind them This book emphasizes these scientific developments in addition to the more widely covered technological aspects providing a full understanding of how machining has adapted to material constraints and moved beyond conventional methods in recent years Numerous processes have been developed to allow the use of increasingly tough corrosion resistant and temperature resistant materials in machining The advanced machining processes covered in this book range from mechanical thermoelectric and electrochemical including abrasive water jet machining electric discharge machining and micromachining ion beam machining and hybrid processes It also addresses the sustainability issues raised by these processes The underlying science of machining is centered throughout as none of these processes can reach their full potential without both technical expertise and scientific understanding *Advanced Machining Science* and its scientific approach will be of particular interest to students researchers and shop floor engineers

**Fundamentals of Manufacturing Processes** G. K. Lal, S. K. Choudhury, 2005 Describes fundamentals of various processes which have been classified as constant mass operations material removal operations and material addition operations In this book the processes discussed are casting metal forming processing of plastics powder metallurgy processing heat treatment metal cutting and welding and allied processes

**Nanofinishing Science and Technology** Vijay Kumar Jain, 2016-12-12 Finishing is the final operation after a part is sized and shaped Currently in high tech industries there is a demand for nano level surface finishing of components This process is done to improve the surface finish to remove the recast layer or to remove surface and sub surface defects The result is low friction longer product life and low power requirements Equally important is the aesthetic aspect of the product This subject is growing very fast from the technology

as well as a science point of view Books on this subject are very limited particularly those ones that deal with both the science as well as the technology aspects *Information Technology and Computer Application Engineering* Hsiang-Chuan Liu, Wen-Pei Sung, Wenli Yao, 2013-10-11 This proceedings volume brings together some 189 peer reviewed papers presented at the International Conference on Information Technology and Computer Application Engineering held 27 28 August 2013 in Hong Kong China Specific topics under consideration include Control Robotics and Automation Information Technology Intelligent Computing and Journal of Engineering for Industry, 1996 *Optics Design and Precision Manufacturing Technologies* Guo Fan Jin, Wing Bun Lee, Chi Fai Cheung, Suet To, 2007-12-06 Selected peer reviewed papers from the Asia Pacific Conference on Optics Manufacture 2007 11 13 January 2007 Hong Kong P R China *International Books in Print*, 1990 **Forthcoming Books** Rose Army, 1997 **Indian Books in Print**, 1996 **Machining Science and Applications** M.
