

Need to Know Guide

**Need to Know:
Life Cycle Assessment (LCA)**

What is a Life Cycle Assessment (LCA)?

LCA is a tool that measures the environmental footprint of a product or service over its life. LCA provides information to help businesses understand impacts and communicate their environmental results.

Stages in a product's life cycle

LCA calculates a snapshot of your product's environmental impacts, including:

- What goes into the product to make it (eg. energy and raw materials)
- What comes out when the product is used and disposed of (eg. water, noise, pollution, etc.)

To know the impact, we consider your product's environmental footprint.

Life Cycle Assessment Thinkstep
