Indian Air Force in India's National Defence 2032 ,2014-06-15 The Indian Air Force IAF from a humble beginning in 1932 with four Wapiti aircraft six Indian officers and 22 hawai sepoy has traversed a long journey and crossed noteworthy milestones to become the fourth largest air force in the world In the past 81 years while facing several limitations challenges the IAF has met all the national defence requirements and made several strategic contributions The 1948 Kashmir airlift Tangail paradrop heli bridging in East Pakistan and many other achievements are historic examples of its sterling performance The only war independent India has lost was the one in which the IAF was not employed in a combat role With growing economic interests and national aspirations expanding interests well beyond our territorial boundaries and prevailing internal security challenges India s national defence requirements are also increasing Reliance of sovereign nation states on aerospace power is essentially growing The first Gulf War was a monumental turning point in the war time employment of aerospace power Ever since the significance of aerospace power in war crisis and peace time has been gaining ascendancy Kosovo and Libya are the two pertinent examples of the allies virtually relying on aerospace power without committing any soldiers on the ground Scrutiny of the emerging global and national trends suggests that employment of aerospace assets as well as the nation s expectation from the IAF will continue to rise Alongside there is an unplanned fall in flying platforms weapon systems and pilot strength of the IAF This study is an attempt to analyse the history of the IAF in war as well as other than war operations to appreciate the emerging trends in geopolitics aerospace technology and doctrine and to identify the likely challenges the IAF would be facing in the next two decades and beyond A roadmap for transformation of the national security framework the indigenous aerospace industry and the IAF has also been suggested

India's Sentinel: Select Writings of Air Commodore Jasjit Singh AVSM, VrC, VM (Retd) Dr Manpreet Sethi, Dr Shalini Chawla, 2014-07-15 Air Commodore Jasjit Singh was one of India s foremost strategic analysts The only constant for him in over three decades of research analyses and writing was the centrality of national interest Indeed the man never let the nation down whether as an air warrior or a strategist ever ready to voice his views irrespective of how the wind was blowing and always remaining practical in approach Ever an optimist he believed that India would inevitably rise to power by the sheer size of its economy and human resource potential A greater concern for him however was the need to sensitize his compatriots to the national security challenges that would arise as the country rose and to equip them with the capability to optimally address these He did so through his writings and talks This book is a modest compilation of his select writings on two specific issues nuclear strategy and Pakistan since he considered these as critical amongst India s many security challenges Of course the range of Jasjit Singh s writings and the expanse of his knowledge is immense and beyond capture in one book But this is a small effort in the direction of spreading his message ideas to the current and future generation of scholars and policy makers Hopefully it will encourage students of national security to look for more of his writings beyond

Nuclear Black Markets Mark Fitzpatrick (M.P.P.),2007 The arrest and public confession of Pakistani nuclear weapons scientist Abdul Qadeer Khan in 2004 revealed the existence of a global proliferation network which had over almost two decades provided nuclear technology expertise and designs to Iran North Korea Libya and possibly other countries Khan was not the only nuclear arms merchant and Pakistan was not the only country implicated in his shadowy network It spanned three continents and eluded both national and international systems of export controls that had been designed to prevent illicit trade The discovery of the network highlighted concerns that nuclear technology is no longer the monopoly of industrially advanced countries but can be purchased off the shelf by both states and terrorist groups The IISS Strategic Dossier on nuclear black markets provides a comprehensive assessment of the Pakistani nuclear programme from which the Khan network emerged the network s onward proliferation activities and the illicit trade in fissile materials In addition the Strategic Dossier provides an overview of the clandestine nuclear procurement activities of other states along with the efforts made both by Pakistan and the international community to prevent the reoccurrence of further proliferation networks and to secure nuclear technology The final chapter assesses policy options for further action
