TANTRA & SACRED ENERGY Premyogi Vajra,2026-02-23 There are moments when love feels deeper than emotion desire feels more than physical and life itself seems to be asking for a truer understanding This book is written for that moment TANTRA SACRED ENERGY is a powerful collected work that brings together three interconnected books into one complete journey of awareness It explores Tantra not as myth taboo or ritual but as a living science that unites love sexuality energy and awakening into a single meaningful experience of life Rather than separating the spiritual from the human this collection reveals how the body emotions relationships and consciousness are woven together Tantra is presented here as a path of integration where nothing is rejected and nothing is exaggerated Desire becomes awareness Energy becomes clarity Love becomes a doorway to deeper understanding The journey unfolds in a natural progression The first book offers a clear and grounded understanding of Tantra as a spiritual philosophy restoring its original depth beyond common misunderstandings The second book explores sexuality and Kundalini awakening as experiential realities approached through psychology energy awareness and meditative insight The third book brings these themes into lived context through a personal narrative that reflects how sacred energy unfolds within ordinary life love and relationship Across these pages readers will encounter reflections on prana chakras Kundalini consciousness inner transformation and the subtle dynamics between body and awareness Ancient wisdom is explored alongside modern inquiry making the material accessible to sincere readers without reducing its depth or seriousness This is not a book of promises or quick techniques It does not sensationalize sexuality or mystify awakening Instead it offers clarity reflection and perspective rooted in lived experience and thoughtful exploration The tone remains grounded respectful and inclusive inviting readers to approach Tantra with intelligence responsibility and openness Whether you are new to spiritual inquiry or already walking an inner path this collection offers a wider lens through which to understand love sexuality and awakening as interconnected aspects of human life It speaks to those who sense that spirituality is not an escape from the world but a deeper way of entering it TANTRA SACRED ENERGY brings together works previously available separately now unified for readers who wish to explore this path as a complete journey rather than isolated ideas It is an invitation to read slowly reflect deeply and rediscover life as something sacred conscious and whole

Awakening to the Sacred Das (Surya., Lama),Das Surya,1999

Inner Awakening Nithyananda Paramahansa,2010 The Sacred Path of Awakening Christopher Love,1999

Practices to Awaken the Sacred Fire Freddy Ramoon,2023-04-30 This book is for anyone seeking spirituality it gives clear and practical indications to achieve inner enlightenment The awakening of the sacred fire is an inner journey an age old quest found in the secrets of the initiates of all cultures The awakening of the sacred fire is the fruit of a spiritual quest a quest that requires willpower determination and a lot of application in the spiritual exercises Anyone who has difficulty in the awakening of the fire simply does not have the right key to do so or the right teacher to accompany them Any failure in spirituality is due to the lack of proper teaching or simply a well seasoned master The sacred fire is like a bank safe kept in a room protected by three doors the keys to which are held by three different employees The key to the first door that gives access to the safe is held by the bank s general manager the second key is held by employee X and the key to the third door is held by an employee Y In this way in order to access the safe the general manager would have to be present with the other two employees at the same time If one is missing it is impossible So is the sacred fire Yoga schools are widespread in the world and their techniques are numerous They assert the existence of seven chakras meaning seven energy centers in the human being However how many people know that there are three essential keys to awakening the fire that will fuel their seven chakras The fire of the head the fire of the heart and the fire of the sex are the three main fires of the human body and the awakening of these fires are the keys to enlightenment Any man who regularly practices awakening them will in the short term obtain bodily modifications which will account for the changes in his aura and if the initiate in question persists in the practice if he pushes the practice further he will become a sage a Buddha as the Buddhists say a saint as the Catholics say and if he continues with great devotion he will be able to awaken the animic powers which lie dormant in every Man and to become squarely a superman It may take years decades or even lifetimes but it is worth the effort for what is gained is the soul The man who chooses the path of spirituality and who nourishes his soul on a daily basis will certainly free himself from the illusion of earthly life and when he has awakened the fire of the head the heart and the sex he will never be unhappy again He will finally know happiness eternal enjoyment what some masters have called nirvana This book is suitable for people of all religions for anyone who is determined to become a high level spiritual being A life without spirituality is a life without salt a bland life No matter what material possessions one may have spirituality is the only way to man s happiness Happiness is above any earthly life devoid of spirituality in a life without initiation one finds only pleasure remorse and suffering yet the light of spirituality offers liberation Open this book to embellish the colors of your soul work for the good of your inner being to rise above pleasure and suffering so that one day you will know nirvana the peace of the soul
