

## **Meditation and Its Practice**

**“You are a citizen of two worlds, the world within and the world without”**

**To be a successful person you will need to understand how to build a bridge between these two worlds**

**You will need to rest the entirety of your mind, and for that you should learn a new way of knowing yourself. That method of inner knowing is called meditation**

**The method he taught follows the approach of first focusing on the body, next the breath, then the senses, and finally the mind**

**“Do not meditate for the purpose of dwelling on the unconscious mind. Do it to form a channel for the presence of the Atman-the indwelling Self of all, do not brood”**

**Atman, the inner dweller**

**Blissful inner state called *Samadhi***

### **Chapter One**

**In meditation you are awake and alert, but not focused on the external world. Neither you are asleep, dreaming, or fantasizing. Instead, your mind is clear, relaxed, and inwardly focused**

**Meditation is simply a quiet, effortless, one-pointed focus of attention and awareness**

**Trying to make the mind empty is impossible anyways, in meditation we allow the mind to focus on one subtle element or object, which leads the attention further inward**

**Sounds which are used to concentrate the mind in meditation are called mantras**

**Good meditation teachers recognize and respect the universality of meditation and do not foster self-serving or cultish distinctions about their techniques**

**It is true that the whole of the body is in the mind, but the whole of the mind is not in the body**
