### **I. General Safety Rules**

Safe weapon handling begins with four simple rules which you must follow as weapons:

1. Treat all weapons as if they are loaded.
2. Keep the weapon pointed in a safe direction.
3. Keep your finger out of the trigger guard.
4. Immediately check to make certain the weapon is unloaded. Clean the weapon if necessary.

Revolvers are checked by simply opening the cylinder and making a visual observation of the cylinder and the chambers. Semiautomatics are checked by first ensuring the magazine is locked back, the slide is the rear, and third looking and feeling into the chamber through the ejection port.

Safety also includes proper weapon and ammunition storage. Always store weapons and ammunition in separate locations. Weapons should be properly secured, such as in a locked gun safe or utilizing a trigger lock. Never store a loaded weapon. Cleaned all weapons be checked routinely specifically designed to transport handguns. Again, keep ammunition and weapons separated during transportation.

**Range safety rules:**

1. Treat all weapons as if they are always loaded.
2. All weapons should be locked until you are at the firing line ready to shoot.
3. If you do not have a facility that carry all semiautomatic weapons with magazine's out and ejection open until on the firing line and ready to load, Revolvers should be cleaned with the cylinder open.
4. Whether on the firing line keep the muzzle of the weapon pointed downrange at all times.
5. Never expose the muzzle of the weapon across any portion of your body.
6. Do not load the weapon until directed by the range officer.
7. If you drop anything back into the range the weapon holder you pick it up.
8. A loaded weapon should be downed with safety engaged on the magazine should be out with the slide locked to the rear.
9. When you are finished shooting allow weapons given to training the firing line.
10. Always wear proper ear and eye protection while shooting.
