**Beginning postcolonialism** John McLeod, 2013-01-18 Postcolonialism has become one of the most exciting popular and stimulating fields of literary and cultural studies in recent years Yet the variety of approaches the range of debate and the critical vocabularies often used may make it challenging for new students to establish a firm foothold in this area Beginning Postcolonialism is a vital resource for those taking undergraduate courses in postcolonial studies for the first time and has become an established international best seller in the field In this fully revised and updated second edition John McLeod introduces the major areas of concern in a clear accessible and organised fashion He provides an overview of the emergence of postcolonialism as a discipline and closely examines its many established critical approaches while also exploring important recent initiatives in the field In particular Beginning Postcolonialism demonstrates how many key postcolonial ideas and concepts can be effectively applied when reading texts and enables students to develop their own independent thinking about the possibilities and pitfalls of postcolonial critique

**A Cartographic Journey of Race, Gender and Power** Syrrina Ahsan Ali Haque, Sameer Afzal, 2021-05-14 This book locates spatial dimensions possible for a global identity while incorporating the presence of collaborative and contentious religious psycho social and physical borders It highlights the significance of space in the construction of racial gender religious cultural idiosyncrasies where private and public space projects the power mechanisms which allocate borders The literary narratives discussed in this collection project a trajectory of voices of the East and West male and female crossing boundaries between identity race gender and class The book proffers that spatial borders are social constructs to propagate the power mechanisms of hierarchical structures defying imbrications explored here which may be used to reflect diversity as a model for global space These explorations are journeys back and forth in time and space towards hierarchies formed through the imposition of borders defining race gender and power which may be considered post in the postmodern postcolonial post 9 11 post secular and postfeminist senses

**Decolonizing Preaching** Sarah Travis, 2014-11-13 Colonialism and imperialism continue to impact the personal and social identities of North American preachers and listeners In Decolonizing Preaching Sarah Travis argues that sermons have a role in shaping the identity and ethics of listeners by helping them formulate responses to empire and colonization Travis employs postcolonial theories to provide important insights for the practice of preaching today She also turns to the social doctrine of the Trinity to offer a vision of the divine human community that effectively deconstructs colonizing discourse This book offers preachers and other practical theologians a gentle introduction to colonial history postcolonial theories and

Social Trinitarian theology while equipping them with tools to decolonize preaching and strategies for preventing resisting and responding to colonizing discourse Travis effectively casts a vision of a perichoretic space in which preacher and listener encounter the living God in Trinity and are transformed reconciled and sent out to others in the church and beyond

Reimagining Philo Torrey Seland,2025-09-22 Reimagining Philo adopts an experimental approach in multiple respects Some readers might question the use of postcolonial theories and viewpoints in examining Philo of Alexandria Is Philo not to be regarded as one of the most integrated Jews living outside of Judea Is he not typically described as the first century Jewish thinker most affected by Greco Roman intellectual traditions a versatile philosopher significantly influenced by various schools of thought Platonism Stoicism and Epicureanism among the most notable While the impact of philosophical schools on Philo is unquestionable it would be inaccurate to define his primary intellectual identity solely from this perspective Philo was also a committed follower of Judaism So he should be comprehended as a Torah observant Jew a Jewish scholar a politician and an apologetic thinker and writer interacting with various intellectual trends of his era Hence this book aims to investigate characteristics of the Roman Empire as a colonizing force its interactions with Jewish matters in Alexandria and how these and other elements influenced Philo s view of the empire A key argument suggests that Philo s perspective underwent a significant transformation following the pogrom in Alexandria in 38 CE and his visit to imperial Rome resulting in a fresh understanding of the empire and the status and roles of the Jews within that context Unhomely England in Post-Imperial British Novels Soody Gholami,2026-01-22 This book investigates the nature of home and nation in post imperial British novels which deal with the loss of Empire and its uncanny presence at home It delves into histories of British colonialism the end of the Empire decolonisation post Second World War nation building and devolution all of which resurface in four selected novels of the late twentieth and early twenty first centuries Marina Warner s Indigo 1992 Caryl Phillips s The Nature of Blood 1997 Julian Barnes s Arthur George 2005 and Zadie Smith s NW 2012 Soody Gholami draws on postcolonial theory and Freud s unheimlich translated as unhomely and uncanny to investigate the novels engagement with postwar government policies specifically in the areas of social housing the British Welfare State and the National Curriculum The analytical perspective highlights the novels evocation of unhomely England that challenges underlying illiberal and jingoistic national narratives Exploring the writers different depictions of home interiors architectural features and British local landscapes this book argues that post imperial British novels continue to highlight racial gendered and class inequalities that undergird domestic perceptions of belonging and national identity in post imperial Britain Gholami also refers to Brexit as the symptom and result of the unresolved history and legacy of colonialism which the novels studied have anticipated all along Combining postcolonial literary critical and psychoanalytical methodology this book will be of interest to scholars of literature postcolonial studies social policy and other disciplines that engage with the concept of home
