Communications Ohio, 1890 **Being a Boss Doesn't Make You a Leader** Martin Steven Goodyer, 2019-02-04 This is a leadership book like no other focused on just one aspect of leadership that of how to think differently It doesn't look like a leadership book and it doesn't preach leadership theories like other leadership books but what it DOES that is really very different to many business books is that it gets finished The most common feedback is I wanted more because learning interesting little known facts about some of the most well known names in history bringing them to life and making sense of how they came to think differently from those around them and make the choices they did is quite simply fascinating For example how many people know that Pythagoras was a cult leader Or that the idea of nothing being constant but change was first voiced thousands of years ago Or that to make his lasting mark on the world one of the most revered names in history deserted his wife and newborn son Or that someone had figured out the world was round another that it was made up with atoms and someone else that it was what goes on inside our heads that drives the way we behave all at least two thousand years ago Imagine being able to time travel and consult with people like Confucius Socrates The Buddha Plato Laozi and Aristotle Then imagine being able to ask them what questions they'd ask if they were Coaching Leaders of today What better way to turn Bosses into Leaders than learn from thinkers whose approaches have already changed the world This book takes a fresh look at leadership and how to think like a leader and stimulate fresh ideas rather than attempt to tell bosses how to be better leaders it stimulates them to ask better questions that cause bosses to be better leaders simply by asking them Let's face facts the best people won't put up with bad management from a poor boss They will simply walk as soon as they're able leaving only poor performers who are unlikely to easily get a job elsewhere Being a Leader and not just a Boss means thinking differently and that's the element of leadership that this book is focused on delivering It means being engaging inspiring and encouraging participation to achieve better results by asking good questions better questions But here's the thing what questions do you ask How do you find the right questions How do you think of questions that instantly improve personal performance In short where do you get your own inspiration and advice for how to ask better questions questions that generate even better results There's no easy answer but learning from 22 ancient genuine thought leaders is a good start **Be a Boss** K.
