Turnock, 2022-06-14 2024 Finalist Marshall McLuhan Outstanding Book Award Media Ecology Association How one company created the dominant aesthetic of digital realism Just about every major film now comes to us with an assist from digital effects The results are obvious in superhero fantasies yet dramas like *Roma* also rely on computer generated imagery to enhance the verisimilitude of scenes But the realism of digital effects is not actually true to life It is a realism invented by Hollywood by one company specifically Industrial Light Magic The Empire of Effects shows how the effects company known for the puppets and space battles of the original *Star Wars* went on to develop the dominant aesthetic of digital realism Julie A Turnock finds that ILM borrowed its technique from the New Hollywood of the 1970s incorporating lens flares wobbly camerawork haphazard framing and other cinematography that called attention to the person behind the camera In the context of digital imagery however these aesthetic strategies had the opposite effect heightening the sense of realism by calling on tropes suggesting the authenticity to which viewers were accustomed ILM's style on display in the most successful films of the 1980s and beyond was so convincing that other studios were forced to follow suit and today ILM is a victim of its

Blade Runner 2049 is a 2017 sequel to the 1982 movie Blade Runner about a world in which some human looking replicants have become dangerous so that other human looking replicants as well as humans have the job of hunting down the dangerous models and retiring destroying them Both films have been widely hailed as among the greatest science fiction movies of all time and Ridley Scott director of the original Blade Runner has announced that there will be a third Blade Runner movie Blade Runner 2049 and Philosophy is a collection of entertaining articles on both Blade Runner movies and on the spin off short films and Blade Runner novels by twenty philosophers representing diverse backgrounds and philosophical perspectives Among the issues addressed in the book What does Blade Runner 2049 tell us about the interactions of state power and corporate power Can machines ever become truly conscious or will they always lack some essential human qualities The most popular theory of personhood says that a person is defined by their memories so what happens when memories can be manufactured and inserted at will We already interact with non human decision makers via the Internet When embodied AI becomes reality how can we know what is human and what is simulation Does it matter Do AI endowed human looking replicants have civil and political rights or can they be destroyed whenever real humans decide they are inconvenient The blade runner Deckard Harrison Ford appears in both movies and is generally assumed to be human but some claim he may be a replicant What s the evidence on both sides Is Niander Wallace the mad scientist cum evil corporate CEO in Blade Runner 2049 himself a replicant What motivates him What are the impacts of decision making AI entities on the world of business Both Blade Runner and Blade Runner 2049 have been praised for their hauntingly beautiful depictions of a bleak future but the two futures are very different and the 2019 future imagined in the original Blade Runner is considerably different from the actual world of 2019 How have our expectations and visions of the future changed between the two movies The dream maker character Ana Stelline in Blade Runner 2049 has a small but pivotal role What are the implications of a person whose dedicated mission and task is to invent and install false memories What are the social and

psychological implications of human AI sexual relations *Blade Runner* Matt Hills,2011 More than just a box office flop which entered the midnight movie circuit Ridley Scott's *Blade Runner* has gone on to become a cult classic which continues to inspire and influence the latest cinema releases This book studies the legacy of the film *Blade Runner* Amy Coplan,David Davies,2015-05-08 Ridley Scott's *Blade Runner* is widely regarded as a masterpiece of modern cinema and is regularly ranked as one of the great films of all time Set in a dystopian future where the line between human beings and replicants is blurred the film raises a host of philosophical questions about what it is to be human the possibility of moral agency and freedom in created life forms and the capacity of cinema to make a genuine contribution to our engagement with these kinds of questions This volume of specially commissioned chapters systematically explores and addresses these issues from a philosophical point of view Beginning with a helpful introduction the seven chapters examine the following questions How is the theme of death explored in *Blade Runner* and with what implications for our understanding of the human condition What can we learn about the relationship between emotion and reason from the depiction of the replicants in *Blade Runner* How are memory empathy and moral agency related in *Blade Runner* How does the style and mood of *Blade Runner* bear upon its thematic and philosophical significance Is *Blade Runner* a meditation on the nature of film itself Including a brief biography of the director and a detailed list of references to other writings on the film *Blade Runner* is essential reading for students indeed anyone interested in philosophy and film studies Contributors Colin Allen Peter Atterton Amy Coplan David Davies Berys Gaut Stephen Mulhall C D C Reeve **Future Noir** Paul Sammon,2007 The fascinating story of the making of the most influential SF film ever made republished to coincide with the film's cinematic re-release It contains exclusive production photos an exclusive interview with Ridley Scott cast interviews including an entirely new interview with Harrison Ford one of the very last interviews made with Philip K Dick and a complete annotated bibliography Studying *Blade Runner* Sean Redmond,2008 Ridley Scott's *Blade Runner* is now widely recognised as a masterwork of science fiction cinema and one of the most influential of any films released in the last twenty five years In *Studying *Blade Runner** Sean Redmond uses the key concepts of media and film studies film language representation institutions and audiences to explore the significance of the film its breakthrough use of special effects as a narrative tool the film's revolutionary representation of the future city its treatment of racial and sexual politics its unique status as a text whose meaning was fundamentally altered in its rereleased Director's Cut form and what this means in an institutional context *Blade Runner* Scott Bukatman,2017-10-26 Ridley Scott's dystopian classic *Blade Runner* an adaptation of Philip K Dick's novel *Do Androids Dream of Electric Sheep* combines noir with science fiction to create a groundbreaking cyberpunk vision of urban life in the twenty first century With replicants on the run the rain drenched Los Angeles which *Blade Runner* imagines is a city of oppression and enclosure but a city in which transgression and disorder can always erupt Graced by stunning sets lighting effects costumes and photography *Blade Runner* succeeds brilliantly in depicting a world at once uncannily familiar and

startlingly new In his innovative and nuanced reading Scott Bukatman details the making of Blade Runner and its steadily improving fortunes following its release in 1982 He situates the film in terms of debates about postmodernism which have informed much of the criticism devoted to it but argues that its tensions derive also from the quintessentially twentieth century modernist experience of the city as a space both imprisoning and liberating In his foreword to this special edition published to celebrate the 20th anniversary of the BFI Film Classics series Bukatman suggests that Blade Runner's visual complexity allows it to translate successfully to the world of high definition and on demand home cinema He looks back to the science fiction tradition of the early 1980s and on to the key changes in the final version of the film in 2007 which risk diminishing the sense of instability created in the original
