High Rise Jg Ballard:

High-Rise: A Novel J. G. Ballard, 2012-04-16 Class war erupts in a luxurious high rise apartment building **High-Rise** J. G. Ballard, 2012-02-27 Harsh and ingenious High Rise is an intense and vivid bestiary which lingers unsettlingly in the mind Martin Amis New Statesman When a class war erupts inside a luxurious apartment block modern elevators become violent battlegrounds and cocktail parties degenerate into marauding attacks on enemy floors In this visionary tale human society slips into violent reverse as once peaceful residents driven by primal urges re create a world ruled by the laws of the jungle

J. G. Ballard, the First Twenty Years J. G. Ballard, 1976 *J. G. Ballard* D. Harlan Wilson, 2017-11-10 Prophetic short stories and apocalyptic novels like *The Crystal World* made J G Ballard a foundational figure in the British New Wave Rejecting the science fiction of rockets and aliens he explored an inner space of humanity informed by psychiatry and biology and shaped by surrealism Later in his career Ballard s combustible plots and violent imagery spurred controversy even legal action while his autobiographical 1984 war novel *Empire of the Sun* brought him fame D Harlan Wilson offers the first career spanning analysis of an author who helped steer SF in new if startling directions Here was a writer committed to moral ambiguity one who drowned the world and erected a London high rise doomed to descend into savagery and coolly picked apart the characters trapped within each story Wilson also examines Ballard s methods his influence on cyberpunk and the ways his fiction operates within the sphere of our larger culture and within SF itself **J.G. Ballard** Michel Delville, 1998 Michel Delville has produced in this volume the first book length study of J G Ballard s literary output and commentaries on contemporary culture *Focus On: 100 Most Popular Films Based on British Novels* Wikipedia contributors,

Reconstructing Modernism Ashley Maher, 2020-03-12 *Reconstructing Modernism* establishes for the first time the centrality of modernist buildings and architectural periodicals to British mid century literature Drawing upon a wealth of previously unexplored architectural criticism by British authors this book reveals how arguments about architecture led to innovations in literature as well as to redesigns in the concept of modernism itself While the city has long been a focus of literary modernist studies architectural modernism has never had its due Scholars usually characterize architectural modernism as a parallel modernism or even an incompatible modernism to literature Giving special attention to dystopian classics *Brave New World* and *Nineteen Eighty Four* this study argues that sustained attention to modern architecture shaped mid century authors political and aesthetic commitments After many writers deemed modernist architects to be agents for communism and other collectivist movements they squared themselves and literary modernist detachment and aesthetic autonomy against the seemingly tyrannical utopianism of modern architecture literary aesthetic qualities were reclaimed as political qualities In this way *Reconstructing Modernism* redraws the boundaries of literary modernist studies rather than simply adding to its canon it argues that the responsibility for defining literary modernism for the mid century public was shared by an incredible variety of authors Edwardians modernists satirists and even anti modernists

Contemporary British Literature and Urban Space K. Duff, 2014-12-03 Looking at writers such as Will Self, Hani Kureishi, J.G. Ballard and Iain Sinclair, Kim Duff's new book examines contemporary British literature and its depiction of the city after the time of Thatcher and mass privatization. This lively study is an important and engaging work for students and scholars alike.

Interior Design on Edge Erica Morawski, Deborah Schneiderman, Keena Suh, Karin Tehve, Karyn Zieve, 2024-04-25 Interior Design on Edge explores ways that interiors both constitute and upset our edges, whether physical, conceptual, or psychological. The essays in this volume explore these questions in history, theory, and praxis through a focus on different periods, cultures, and places. Interior Design on Edge showcases new scholarship that expands and contests traditional relationships between architecture, interiors, and the people that use and design them, provoking readers to consider the interior differently, moving beyond its traditional architectural definition. Focusing on the concept of interiority considered in a wider sense, it draws on interdisciplinary modes of investigation and analysis and reflects the latest theoretical developments in the fields of interior design, history, and practice. With new research from both established and emerging authors, this volume will make a valuable contribution to the fields of Interior Design, Architecture, Art and Design, History, Cultural History, Visual Culture Studies, and Urban Studies.

Violence and Dystopia Daniel Cojocaru, 2015-09-18 Violence and Dystopia is a critical examination of imitative desire, scapegoating, and sacrifice in selected contemporary Western dystopian narratives through the lens of René Girard's mimetic theory. The first chapter offers an overview of the history of Western utopia/dystopia with a special emphasis on the problem of conflictive mimesis and scapegoating violence and a critical introduction to Girard's theory. The second chapter is devoted to J.G. Ballard's seminal novel *Crash* (1973), Chuck Palahniuk's *Fight Club* (1996) and *Rant* (2007) and Brad Anderson's film *The Machinist* (2004). It is argued that the car crash functions as a metaphor for conflictive mimetic desire and leads to a quasi-sacrificial crisis as defined by Girard for archaic religion. The third chapter focuses on the psycho-geographical writings of Iain Sinclair and Peter Ackroyd. Walking the streets of London, the pedestrian represents the excluded underside of the world of Ballardian speed. The walking subject is portrayed in terms of the expelled victim of Girardian theory. The fourth chapter considers violent crowds as portrayed by Ballard's late fiction, the writings of Stewart Home, and David Peace's *GB84* (2004). In accordance with Girard's hypothesis, the discussed narratives reveal the failure of scapegoat expulsion to restore peace to the potentially self-destructive violent crowds. The fifth chapter examines the post-apocalyptic environments resulting from failed scapegoat expulsion and mimetic conflict out of control as portrayed in Sinclair's *Radon Daughters* (1994), Margaret Atwood's *The Handmaid's Tale* (1985) and *Oryx and Crake* (2003) and Will Self's *The Book of Dave* (2006).

Trauma, Postmodernism and the Aftermath of World War II Paul Crosthwaite, 2009-01-29 The radical postmodernist waves of experimentation that swept Anglo-American fiction from the late 1960s constitute a delayed response to the upheavals of the
