The Liberating Philosophy of Ignacio Ellacur a Randall Carrera Uma a, Luis Arturo Mart n e z V squez, Luis Rub n D az Cepeda, 2024-01-16 The Liberating Philosophy of Ignacio Ellacur a Historical Reality Humanism and Praxis is the first systematic work on the philosophy of Ignacio Ellacur a to be published in English so far The Spaniard Salvadorian philosopher murdered in Salvador in 1989 by the military maintains that philosophy is a permanent task grounded in metaphysics as first philosophy as developed within a historical reality and a preferential option for the poor As explored by this collection edited by Luis Arturo Mart n e z V squez Randall Carrera Uma a and Luis Rub n D az Cepeda Ellacur a s theory is a critical and practical proposal immersed in the colonial history of Central America but its explanatory and normative power extends to oppressed people all around the world The contributors to this volume coming from Spain Mexico Argentina Salvador and Costa Rica analyze Ellacur a s philosophy of liberation in conjunction with radical realism and strength describing it as a philosophy created by people concerned with the problems and history of our land such as our colonial past systemic poverty and dependency and responding to these concerns can offer alternatives for a true liberation of all the dominated peoples of the world

El hombre unidimensional Herbert Marcuse, 2017-12-28 El hombre unidimensional es un an lisis de las sociedades occidentales que bajo un disfraz pseudodemocr tico esconden una estructura totalitaria basada en la explotaci n del hombre por el hombre La obra se basa en dos hip tesis aparentemente contradictorias De un lado Marcuse afirma que la sociedad industrial avanzada es capaz de reprimir todo cambio cualitativo Por otro lado parece prevalecer la hip tesis que quiere que en esta sociedad existan fuerzas capaces de poner fin a la represi n y de hacer explotar las mortales contradicciones que laten en su seno Para Marcuse tanto los medios de comunicaci n como las industrias culturales socializan los valores del sistema dominante y ahogan el pensamiento cr tico creando un escenario cultural unidimensional que propicia un pensamiento nico y condiciona la conducta del individuo en la sociedad bajo la apariencia de una conciencia feliz De gran influencia en el momento de su publicaci n El hombre unidimensional deviene hoy d a una obra imprescindible para arrojar luz sobre la actual sociedad de la informaci n

La aportación fundamental de Marcuse reside en el enfoque filosófico social de esa dualidad característica de las sociedades industriales avanzadas capaces de crear las condiciones para una nueva civilización en la cual el hombre se encuentra liberado de las limitaciones que le redujeron a sobrevivir en la penuria desde los inicios de su existencia sobre el planeta y al mismo tiempo se encuentra cercado por una red de instrumentos de control y de represión forjados para garantizar la persistencia de un sistema de dominación

Del prólogo de Antonio Elorza **Marxism and Psychoanalysis** David Pavón-Cuellar, 2016-12-19 The methods developed by Freud and Marx have enabled a range of scholars to critically reflect upon the ideological underpinnings of modern and now postmodern or hypermodern western societies In this intriguing book the discipline of psychology itself is screened through the twin dynamics of Marxism and psychoanalysis David Pavón Cuellar asks to what extent the terms concerns and goals of psychology reflect in fact the dominant bourgeois ideology that has allowed it to flourish The book charts a gradual psychologization within society and culture dating from the nineteenth century and examines how the tacit ideals within mainstream psychology creating good citizens or productive workers sit uneasily against Marx and Freud's ambitions of revealing fault lines and contradictions within individualist and consumer oriented structures The positivist aspiration of psychology to become a natural science has been the source of extensive debate critical voices asserting the social and cultural contexts through which the human mind and behaviour should be understood This challenging new book provides another voice that in addressing two of the most influential intellectual traditions of the past 150 years widens the debate still further to examine the foundations of psychology

Psychedelic Chile Patrick Barr-Melej, 2017-03-27 Patrick Barr Melej here illuminates modern Chilean history with an unprecedented chronicle and reassessment of the sixties and seventies During a period of tremendous political and social strife that saw the election of a Marxist president followed by the terror of a

military coup in 1973 a youth driven transnationally connected counterculture smashed onto the scene Contributing to a surging historiography of the era s Latin American counterculture Barr Melej draws on media and firsthand interviews in documenting the intertwining of youth and counterculture with discourses rooted in class and party politics Focusing on hippismo and an esoteric movement called Poder Joven Barr Melej challenges a number of prevailing assumptions about culture politics and the Left under Salvador Allende s Chilean Road to Socialism While countercultural attitudes toward recreational drug use gender roles and sexuality rock music and consumerism influenced many youths on the Left the preponderance of leftist leaders shared a more conservative cultural sensibility This exposed Barr Melej argues a degree of intergenerational dissonance within leftist ranks And while the allure of new and heterodox cultural values and practices among young people grew an array of constituencies from the Left to the Right berated counterculture in national media speeches schools and other settings This public discourse of contempt ultimately contributed to the fierce repression of nonconformist youth culture following the coup
