

A Short Introduction to Catholic Social Thought

The Catholic social tradition is grounded in the values and principles of Judeo-Christian religious experience which are reflected in the Christian scriptures and the church's lived tradition. It has evolved as each generation has attempted to live in society with reflective fidelity to those values and that religious vision. An active commitment to social justice is now recognized as essential to authentic Catholic faith.

As an intellectual tradition, Catholic Social Thought includes the work of great patristic and classical theologians, such as Augustine, Suarez and Thomas Aquinas, as well as the continuing reflection of individuals and contemporary schools addressing the issues and institutions of social living, such as Liberation Theology, African Theology, Asian Theology, Eco-theology and Feminist Theology.

In 1891, Pope Leo XIII began a tradition of official Catholic Social Teaching with his encyclical letter *On the Condition of Labour*. A second social encyclical was issued by Pope Pius XI on the 40th anniversary of Leo's in 1931, *The Reconstruction of the Social Order*.

Thirty years later, the third encyclical in the series, Pope John XXIII's *Christianity and Social Progress*, however, initiated an explosion of social teaching, with major official teaching statements being issued every two or three years since. They represent the rising social consciousness and concern in the church as it searches for more just and sustainable ways for the peoples of the earth to live together in peace.

The heart of both Catholic social thought is simple and forceful: the sacred dignity of every individual as a member of the community of creation. This grounds the full panoply of human rights and responsibilities, a special option for those in poverty and on the margins of society, the call to stewardship and global solidarity.

The huge body of Catholic social thought and Catholic Social Teaching has been summarized in various ways. The U.S. Catholic bishops have highlighted 7 key themes:

- Life and Dignity of the Human Person
- Call to Family, Community, and Participation
- Rights and Responsibilities
- Option for the Poor and Vulnerable
- The Dignity of Work and the Rights of Workers
- Solidarity
- Care for God's Creation

In a useful outline summary of the major documents, *Catholic Social Teaching: Our Best Kept Secret*, available from the Center of Concern in Washington DC, USA (<http://www.coc.org/>), fourteen major lessons are identified:

- Link of Religious and Social Dimensions of Life
- Dignity of the Human Person
- Political and Economic Rights
- Option for the Poor
- Link of Love and Justice
- Promotion of the Common Good
- Subsidiarity
- Political Participation
- Economic Justice
- Stewardship
- Solidarity
- Promotion of Peace
- ? Work
- Liberation

Both of these lists make useful clusters of the concerns, values and principles that are the heart of Catholic social thought and official Catholic Social Teaching.

Introduction To Social Thought

Clifford Lane

Introduction To Social Thought:

Sociology CN Shankar Rao, 2012 This textbook has been comprehensively written to acquaint the students with the fundamental concepts of sociology as well as provide an introduction to the diverse field of sociology. Students will be introduced to the origins of sociology as a discipline and would get acquainted with relevant topics such as inequality, institutions, control, change, disorganisation, problems in the society. Topics such as applied sociology and social thought have also been provided to give a complete overview of the subject. This textbook not only caters as a primary text to the undergraduate students of Sociology but is also a useful reference for postgraduate students and aspirants appearing for various competitive examinations. The Blackwell Dictionary of Modern Social Thought William Outhwaite, 2006-05-08 Modern social thought ranges widely from the social sciences to philosophy, political theories and doctrines, cultural ideas and movements and the influence of the natural sciences. Provides an authoritative overview of the main themes of social thought. Long essays and entries give full coverage to each topic. Covers major currents of thought, philosophical and cultural trends and the individual social sciences from anthropology to welfare economics. New edition updates about 200 entries and includes new entries, suggestions for further reading and a bibliography of all sources cited within the text. Sport and Leisure in Social Thought Grant Jarvie, Joseph Maguire, 2002-09-11 This much needed book examines all of the major traditions of social thought to clearly show their influence in our understanding of sport and leisure. **Sociological Thought** M. Francis Abraham, John Henry Morgan, 1989 Designed as a first line introductory text to the study of sociological thought, this book is now considered a classic in the field and is a top seller in the Third World for university courses in sociological theory. The perspective is cross-cultural. The main currents of sociological thought says the authors advanced by the founders and the later masters represent different times, various cultural contexts and the many intellectual cross-current representatives of each time period. Rigorously defined and not necessarily appropriately, these early thoughts were merely ideas rather than soundly constructed theories for building blocks of theoretical development. They provide insights into and perspectives on the structure and functioning of social systems and the conceptual frameworks for their systematic analysis. The history of sociology then is the history of social thought. This volume provides a carefully constructed look into the emerging social thought of the twentieth century as reflected in the emerging discipline of sociology. Paul Tillich and Religious Socialism Kirk R. MacGregor, 2021-03-19 Paul Tillich and Religious Socialism Towards a Kingdom of Peace and Justice argues that the Kingdom of God, the reign of God over all human affairs via God's manifestations in love, power and justice can be fragmentarily achieved through a religious socialism that creatively integrates the early Tillich's socialist thinking with later insights throughout Tillich's theological career and with contemporary developments in just peacemaking. The resulting religious socialism is defined by economic justice and a recognition of the sacred reality in all human endeavors. It employs Christianity to furnish the necessary depth for warding off materialism and affirming the spiritual dimension of

both labor and acquiring material goods The unbridgeable Marxist chasm between expectation and reality is bridged through new being already historically inaugurated in the Christhood of Jesus New being is fundamentally oriented toward bringing justice to the poor the disenfranchised and the marginalized It affirms the individual and equal value of all persons and thus in Kantian terms promotes a kingdom of intrinsically worthwhile ends rather than a kingdom of instrumentally worthwhile means of things

A Short History of Sociological Thought Alan Swingewood,1984 This book is a critical assessment of the work of classical sociologists such as Marx Weber and Durkheim and the work of Mead Goffman Parsons and Foucault The relationship between modernity and sociology is critically evaluated It is argued that sociology arose out of modernity and its theories of society can be understood in this context The book concludes with a critical view of new theories of identity which have developed out of post structuralism and postmodernism

Theory and Methods in Sociology John Hughes,Wes Sharrock,2017-09-16 This book offers a guide to sociology that explores its theoretical and methodological dimensions Aiming to provide the reader with a sense of the reasoned character of the discipline it traces how different theories and methods relate to one another exploring the particular problems they spawn and the debates that have arisen in response

Foundations of African Social Thought J. M. Assimeng,1997 The author is a distinguished Ghanaian sociologist and the genesis of this book is the view that material available is inadequate and inappropriate to introduce students of African descent to the field of social issues

Alex Swan,2013-10-03 Grounded Encounter Therapy is a discovery intervention and application approach which allows the theory which guides the process to be developed from an analysis of the situation or context rather than imposed at the outset by the therapist It is a dramatic contrast to psychological theories particularly psychoanalysis which impose a specific causal theory at the outset In GET on the other hand the theory emerges from the client defined context not the other way around The book introduces students and professionals an alternative to doing counseling and therapy Traditional therapist see what they look for and what they look for they see and what they see is what their therapeutic modalities allow them to see and what their therapeutic modalities allow them to see is what they treat

Main Currents in Sociological Thought Raymond Aron,1999 In this second volume of Main Currents of Sociological Thought Raymond Aron continues the analysis begun in the first volume of the great doctrines of historical sociology Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century Emile Durkheim the great French theorist of consensus who continued Auguste Comte's quest for a science of society and a scientific validation of morality Vilfredo Pareto the Italian neo Machiavellian who

mocked traditional morality and humanitarian pretensions and emphasized the oligarchic or elitist character of all societies and the German sociologist Max Weber who reflected continuously on the relationship between science and action filled with deep foreboding about the prospects for human freedom in an age marked by bureaucratization and rationalization Aron presents rich portraits of these three thinkers drawing from them what remains of enduring worth even as he distances himself from Durkheim's project for a science of society Pareto's exaggerated critique of humanitarianism and Weber's tragic pessimism Aron's book is essential for clarifying his profound indebtedness to and crucial divergences from the thought of Max Weber the sociologist par excellence in Aron's view Together with volume 1 which treats the work of Montesquieu Comte Marx and Tocqueville it forms the definitive survey of the great social thinkers to date Yet as Daniel J Mahoney and Brian C Anderson explain in their introduction *Main Currents* is more than a survey it is above all a challenge to contemporary social science to retain the ambition of an older philosophically informed sociology to present an interpretation of modern society and to reflect on the meaning of universal history
