Marketing Metaphors and Metamorphosis Philip J. Kitchen, 2008-08 In the early 21st century marketing is under fire as never before Its nature and contribution to business performance are under serious scrutiny by practitioners and theorists Surely metaphors are more widely known in literature Do they apply in marketing Metaphors are widely used within marketing literature yet are hardly ever identified as metaphorical in nature This text aims to redress this omission For example such widely known topics as the marketing mix globalization of markets market segmentation viral marketing the product life cycle and many others are in fact metaphors Applied literally as straightforward market management tools they not only are hostage to fortune but can seriously damage brand product and indeed company performance Moreover marketing itself may be a metaphor apparently underlying or overarching many exchanges and relationships Perhaps marketing is changing or metamorphosing into something else as yet undefined but resonant with possibilities
