Kramsch,1998 **Currents in African Literature and the English Language** ,2018-05 **Learning Language and Culture Via Public Internet Discussion Forums** B. Hanna,Juliana De Nooy,2009-03-31 Public Internet discussion forums offer vast possibilities for interaction with speakers of other languages with newspaper websites from many countries proposing forums on a smorgasbord of topics from travel to tertiary education to techno music These sites provide opportunities both for authentic foreign language practice and for developing intercultural competence Currently however public forums are largely ignored by language educators in favour of purpose built exchanges between learners The authors

investigate the untapped pedagogical potential of these forums Drawing on examples from English and French language media websites they explore cultural differences in public forum discussion and propose guidelines for participating effectively and maximising the learning opportunities Case studies highlight the skills needed to venture beyond learner to learner interaction and engage with another culture autonomously in roles other than that of student The emphasis on strategies for successful and culturally sensitive interaction in authentic contexts makes the book a valuable tool for teachers and learners of any language Web Technologies Arthur Tatnall,2009-10-31 With the technological advancement of mobile devices social networking and electronic services Web technologies continues to play an ever growing part of the global way of life incorporated into cultural economical and organizational levels Web Technologies Concepts Methodologies Tools and Applications 4 Volume provides a comprehensive depiction of current and future trends in support of the evolution of Web information systems Web applications and the Internet Through coverage of the latest models concepts and architectures this multiple volume reference supplies audiences with an authoritative source of information and direction for the further development of the Internet and Web based phenomena **Jahrbuch für internationale Germanistik** ,2008
