Mysticism And Philosophical Analysis:

Mysticism and Philosophical Analysis Steven T. Katz, 1994-07-14 Mystical and religious experience are subjects which are constantly under investigation by both the religiously sensitive and in a more general way by those interested in the phenomenon This comprehensive study by a group of distinguished American and British scholars sympathetically and objectively deals with mystical experience in Christianity Judaism and Eastern religions Mystic Union Nelson Pike, 1992 What is it to experience union with God In this highly original and accessible book one of our leading philosophers of religion seeks to answer this question by analyzing the several states of mystic union as they are described and explained in the classical primary literature of the Christian mystical tradition *Mysticism* Jess Byron Hollenback, 1996 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic s interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic s experience as well Hollenback also explores the linkage between the mystic s practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience Mysticism and Language Steven T. Katz, 1992 Taken collectively the original essays in this new collection make up the most important exploration of mysticism and language to appear in many years Written from diverse perspectives on a wide variety of religious and mystical traditions ranging from Judaism and Christianity to Zen Buddhism and Hinduism all the essays exhibit great erudition a mastery of the original mystical sources and philosophical and hermeneutical sophistication Further all recognize the inadequacy of treating the questions surrounding this subject a contextually outside of their historic intellectual and sociological circumstances As such these studies deepen the on going revisionist contextualist study of mysticism so powerfully and influentially inaugurated by two previous collections also edited by Steven Katz *Mysticism and Philosophical Analysis* and *Mysticism and Religious Traditions* Like its predecessors the present collection includes work by some of the world s leading authorities on mysticism including Moshe Idel William Alston

Bernard McGinn Ewert Cousins Bimal Matilal Carl Ernst and Steven Katz It is sure to become essential reading for everyone interested in mysticism as well as those who study religion comparative religion philosophy and history **St. Francis of Assisi and Nature** Roger D. Sorrell, 1988-12-08 One of the best loved saints of all time Francis of Assisi is often depicted today as a kind of proto hippie or early environmentalist This book the most comprehensive study in English of Francis s view of nature in the context of medieval tradition debunks modern anachronistic interpretations arguing convincingly that Francis s ideas can only be understood in their 13th century context Through close analysis of Francis s writings particularly the Canticum of the Sun Sorrell shows that many of Francis s beliefs concerning the proper relation of humanity to the natural world have their antecedents in scripture and the medieval monastic orders while other ideas and practices his nature mysticism his concept of familial relationships with created things and his extension of chivalric conceptions to interactions with creatures are entirely his own Sorrell insists however that only by seeing Francis in terms of the Western traditions from which he arose can we appreciate the true originality of this extraordinary figure and the relevance of his thought to modern religious and environmental concerns Different Paths, Different Summits Stephen Kaplan, 2001-12-20 In a world where religious pluralism is a necessity of modern life diverse religions exist for the diverse people populating the earth Theologically how do people of different faiths find liberation in their separate gods simultaneously Stephen Kaplan answers this question with his new book Different Paths Different Summits He presents a model for religious pluralism that does not fall victim to the criticisms of pluralist models Religious positions do not need to be transcended in order for varying faiths to be both honored and liberating simultaneously Kaplan skillfully depicts three different realities a theistic ultimate reality a monistic ultimate reality and a process non dualism along with their beliefs His model allows for each to exist simultaneously mutually interpenetrating and distinct **Philosophy of Mysticism** Richard H. Jones, 2016-03-23 This work is a comprehensive study of the philosophical issues raised by mysticism Mystics claim to experience reality in a way not available in normal life a claim which makes this phenomenon interesting from a philosophical perspective Richard H Jones s inquiry focuses on the skeleton of beliefs and values of mysticism knowledge claims made about the nature of reality and of human beings value claims about what is significant and what is ethical and mystical goals and ways of life Jones engages language epistemology metaphysics science and the philosophy of mind Methodological issues in the study of mysticism are also addressed Examples of mystical experience are drawn chiefly from Buddhism and Advaita Vedanta but also from Christianity Judaism Islam and Daoism **Journal of Studies in Mysticism** , 1978 The Problem of Pure Consciousness Robert K. C. Forman, 2023 This collection of essays challenges the widely accepted interpretation of mystical experience that received its fullest expression in two volumes edited by Steven T Katz *Mysticism and Philosophical Analysis* and *Mysticism and Religious Traditions* *Mysticism, Freudianism and scientific psychology* Knight Dunlap, 1920 **Mysticism and Religious Traditions** Steven T. Birgitta Mark,2000 In this comprehensive and well grounded study Birgitta Mark examines the idea of mysticism exploring
the evidence and possible explanations for mystical experiences including the latest scientific theories of consciousness and
neuronal activity As a case study she explores in depth the writings and later scholarly interpretations of the mystical
experiences of St John of the Cross the 16th Century Spanish philosopher who sought to transcend mere physical existence
through meditation and hardship This well researched book will be of great interest to scholars of religion and psychology
and others who wish to learn more about mystic states and the people who have sought to achieve them throughout history

The Sumarah Movement in Javanese Mysticism Paul Stange,1980 **Mystics Quarterly** ,1996 Science and
Mysticism Richard H. Jones,1986 A reconciliation of mystical and scientific claims is proposed in this study a position that
attributes reality both to being and to the structures in the realm of change with mysticism being authoritative for the former
and science for the latter **The Vassar Miscellany** ,1907 **The Pacific World** ,2003 The Encyclopedia of Religion
