Natural Resource Conservation Management For A Sustainable Future 10th Edition:

Natural Resource Conservation Oliver S. Owen, Daniel D. Chiras, John P. Reganold, 1998 This text emphasizes the ecological principles, policies, and practices to manage a sustainable future. It is a comprehensive text offering a scientifically thorough survey of natural resource and environmental issues with an emphasis on practical, cost-effective, and sustainable solutions.

The Rural Midwest Since World War II J. L. Anderson, 2014-02-01 J. L. Anderson seeks to change the belief that the Midwest lacks the kind of geographic coherence, historical issues, and cultural touchstones that have informed regional identity in the American South West and Northeast. The goal of this illuminating volume is to demonstrate uniqueness in a region that has always been amorphous and is increasingly so. Midwesterners are a dynamic people who shaped the physical and social landscapes of the great midsection of the nation, and they are presented as such in this volume that offers a general yet informed overview of the region after World War II. The contributors, most of whom are Midwesterners by birth or residence, seek to better understand a particular piece of rural America, a place too often caricatured, misunderstood, and ignored. However, the rural landscape has experienced agricultural diversity and major shifts in land use. Farmers in the region have successfully raised new commodities from dairy and cherries to mint and sugar beets. The region has also been a place where community leaders fought to improve their economic and social well-being; women redefined their roles on the farm; and minorities asserted their own version of the American Dream. The rural Midwest is a regional melting pot, and contributors to this volume do not set out to sing its praises or, by contrast, assume the position of Midwestern modesty and self-deprecation. The essays herein rewrite the narrative of rural decline and crisis and show, through solid research and impeccable scholarship, that rural Midwesterners have confronted and created challenges uniquely their own.

Natural Resource Conservation Daniel D. Chiras, John P. Reganold, 2010 Intended for those interested in gaining a basic knowledge of natural resources and conservation.
