## Article: What is CLIL?

By Phil Ball

Despite the self-explanatory nature of the phrase 'Content and Language Integrated Learning', the true nature of CLIL still remains elusive. This introductory article (of four) briefly analyses a series of broadly-accepted definitions of CLIL, as a way of highlighting its most significant characteristics.

[What is CLIL?](#) / [Five definitions of CLIL](#) / [CLIL has a dual focus](#) / [CLIL buys us time](#) / [CLIL causes change](#) / [CLIL motivates](#)

### What is CLIL?

Well, that's a good question. CLIL is an acronym, and as such it tends to attract people's attention. If we were to ask the question 'What is subject teaching?' or 'What is language teaching?' we would probably be expecting more than four short articles in response. But CLIL has been bold enough to encapsulate itself within an acronym, implying that it is an approach, a philosophy - an educational paradigm with frontiers that can be defined.

If you teach EMI (English as a Medium of Instruction), LAC (Language Across the Curriculum), CBI (Content-based Instruction) or CBLT (Content-based Language Teaching; if you work in Bilingual Education; if you're a subject teacher working through the medium of a foreign language, or a language teacher bringing in content into your English lesson, you work within the area of Content and Language Integrated Learning.

### From Ancient Rome to the Internet

The acronym itself is a good one, because it is largely self-explanatory. Invented back in the mid-1990's, it seems to be passing the test of time. CLIL itself has been around for a long time - and was put into practice by ancient Roman upper-middle classes, who preferred to have their children educated in Greek. However, should you want to find definitions of modern CLIL, it is relatively easy to find them. Just Google the title of this article, on a restricted search, and you'll find 180 sites to choose from, all of which attempt to answer your question.

### From abstract to concrete

However, the problem with definitions, particularly when it comes to educational approaches, is that they tend to remain rather abstract. In this series of articles, I attempt to make the abstract nature of CLIL-speak more concrete and comprehensible. But before that, let's take a look at some of the most common definitions on the web. In each definition there is a part underlined, which I think is particularly useful. Each of those underlined sections will represent a distinct but significant aspect of CLIL that needs highlighting, at least at this stage of the discussion.

### Five definitions of CLIL

#### **1. CLIL is a member of the Curriculum Club.**

Here's the simplest of all, from the European Commission itself:

*"Content and Language Integrated Learning (CLIL), in which pupils learn a subject through the medium of a foreign language....."*

On this purely descriptive level, this quotation endorses CLIL as a construct - as a member of the Curricular Club. It seems uncontroversial because we do not know to what extent or to what level pupils 'learn a subject' through the foreign language, and we are left unaware of any reasons for doing CLIL.

#### **2. CLIL has a dual focus.**

The next one offers a more detailed description:

*"CLIL refers to situations where subjects, or parts of subjects, are taught through a foreign language with dual focused aims, namely the learning of content, and the simultaneous learning of a foreign language".*

(Marsh, D. 2002. Content and Language Integrated Learning: The European Dimension - Actions, Trends and Foresight Potential).
